LINDA WEAVER

Hi Linda,
To someone who's fun to be with and stay as sweet as you are and you'll always have friends. Good luck in anything you do in the future. Katie Dacey

Linda,
Always stay as nice and sweet as you are! Good luck on next year's track! Kelly Glowski

Linda,
one of the sweetest and nicest girls in the sophomore class. Stay Good as cute as you are. You do Luck in everything you do. Molly Garrett

Linda,
Best of luck to you in the future. Russell Ringold

Linda,
Go a 'real sweet girl - we're had loads of fun? in Latin class together. Best o' luck! Paula Silberman

To Linda,
Although I only met you in English class I and I've grown to like you more and more - keep up that lower lip - and don't ever lose that wonderful personality - loads of luck in all you attempt

Linda Hutchinson

Linda,
Best of luck in the future. It's been nice knowing you this year. Linda Moore

To Linda,
Best of luck at summer parties. Chandler Boonstra

To one friend in my
history class from
another one.

Guess Who?

Linda, a real
yo a real
sweet kid in
my history class.
See ya next year.
Good Luck,
Garry Kudliniski
-63-

Linda
To a real nice
girl who sits across
from me with hair
in study hall
and Hollman

Linda -
To a sweet gal
Hope to see ya next
year! Remember
Dubie's party!
Julie Guzman

To a real nice
girl. Best luck
always

Tom Iserman

Linda,
To a real nice
girl. It's been nice
Latin. Best of luck
Perry Dorman

Weaver,
You're a nut
but a good one.
I hope we can
get together more
next year.

Duby

Linda
Keep the lunches
telling next year.
Best of luck in the
future
John P. G.

To a real sweet girl
who I've known for a
couple of years.
Lots of luck.

Dennis Schickel

Linda -
You are a
sweet girl who is
with me! May God Bless You
Joe McKinn

Linda -
I like to
start off a new
page! I really
think you're a swell kid,
and hope to be with you
next year.
God bless ya,
Bonnie Silver

To a real
neat girl
Best of
luck
Paul Stasiak

Dearest Linda
you're a real
sweet kid. Hope
to see you next
year during the
summer. Best of
luck always.
Pitty Amprie

To a real
sweet girl
with a personality
a match to any that
way for a long time
Linda
Lynette

Linda -
I met a cute girl
at Shoreland. I met her in the 3rd grade
those corny letters we
used to write. Lots of
luck and happiness to a
wonderful friend. Love -
Lynne Jacobs

Linda,
a very pretty and
nice girl in my study hall.
Have fun with typing next year.
Love Bless Alilayo,
Lain Mitchell
- '63

Linda
To a real sweet girl
which I have enjoyed
knowing this year and
hope I will know
you next two years.
Love such in
Linda

 of tomorrow

A familiar sight to both school bus riders and sports followers is the rear entrance. Here buses load and unload daily, and spectators enter the building through the field house lobby.

Seasonal beauty enhances modern design.

Gracefully curving sidewalks bend toward the main entrance.

Several years ago our Board of Education saw the growing need for a new school building and in March, 1957, passed a resolution to build a new high school. In September of the following year, formal ground-breaking ceremonies were held, and construction was started on the three and one-half million dollar school. Year-round crews worked to complete the building in time for its September, 1960 opening. The school's modern facilities include an auditorium with 1500 seats, three gymnasiums, a student activities room, a 7588 volume library, and a cafeteria which seats 600. This year our building houses over 1600 students.

to one of
 my future
 you do
 always
 you do.

SEATED: Mrs. Janet Hopkins, Henry Metzger, Emery Meyers — President. STANDING: Homer S. Nightingale — Superintendent, Edward C. Kutz, Clyde Elder — Vice President, Orra K. Benton — Clerk-Treasurer.

Homer S. Nightingale — Superintendent, Washington Local Schools

The Board of Education members, who are elected for four-year terms, employ Mr. Homer Nightingale to administer their plans for our school system. The board must consider the needs of one senior high school, two junior high schools, and eleven elementary schools. By looking ahead, it was able to plan for two elementary schools which will be opened in the next two years to meet the growing enrollment. To keep the high educational standards which it sets, the board employs nearly 350 teachers for the 9133 students currently enrolled in our schools. In addition to the regular public school program, summer school and adult night school sessions are held. The post of assistant superintendent for instruction, held by Mr. Jack Meade, was created to help with the administration of the Washington Local Schools.

To a wonderful
sister. May
all your dreams
come true.

The mural which decorates the east wall of the field house was painted by Jim Nickloy, a local artist. It shows the evolution of athletic events and pictures all sports in which Whitmer participates. Even a stylized Panther has been incorporated into the design in the lower right.

Graduation has a different meaning to different seniors. To some it represents the end of their formal education and the beginning of their life's work. To others it is merely a stepping stone towards a higher education, either at a college or at a school of specialized training.

In the classroom students use a study period to learn the same French verbs, geometry theorems, and cell structures that other students before them have had to learn.

Students eagerly await the last period of the day on special Fridays when pep sessions are held. Here juniors meet their friends and enter the field house to cheer their team.

Students' spirits rise as high as the flames of the crackling bonfire. Here our fighting Panther teams are introduced to their cheering classmates at the beginning of the football season.

Individuals vary yearly pattern.

Every fall, with regularity, school begins; every spring, without fail, graduates in caps and gowns end their high school careers. What happens between the beginning of school and its dismissal affects the whole life of each student.

Whitmer, with its own customs, traditions, and personality, welcomes incoming students into its friendly atmosphere and helps them to adapt to it. The high academic standards, keen athletic competition, and generally stimulating atmosphere which are provided by the school allow the student to grow and develop his potential. As a result of this distinctive educational system leaves Whitmer at graduation as a more complete personality. The graduate is not the only one who profits from his time spent at Whitmer. The school gains with each new student's arrival; it is enriched by his searching mind; it profits from his very presence. Although he may take standard courses and follow the prescribed path, each student is an individual and contributes to his school as such.

Traditions renew their fire and vitality with each new wave of enthusiastic students who participate in them. Each new group is an identity in itself; every group helps to build the over-all character of the school. Every group, every student, is different; but when they are combined, they are the school. They form a new, a different, and a growing school each year. Although the classes, clubs, and co-curricular activities are much the same from year to year, the distinguishing element, that makes this school year different from the score of others that have preceded it and the scores of others to follow, is the students. These individual members of the school set apart each year, each activity, each day, from all others and impress upon them a distinctive mark and stamp of personality.

Throughout this book the emphasis will be upon the people — students and teachers — who have made this school year both memorable and distinctive. For each of them this one nine-month school period holds a personal significance. The 1963 Oracle hope to preserve and enhance these memories for everyone as one more year closes and becomes a part of Whitmer's history.

Interim Council meets after school in the lunch room. The council is made up of students from all grade levels, and is presided over by Mr. Schaefer. The council meets every week and discusses all school and community projects.

[illegible]

Danny Ross, Judy Hens, Terry Franks, and Leslie Martin listen to one of the many records and foreign tapes used in the lab

Language courses capture the beauty,

The first part of the year is spent on basic grammar and vocabulary. When the students have a working knowledge of the language, they begin translating Caesar's Gallic Wars. While these students follow Caesar through his many adventures and campaigns, the third year students learn about Roman history by translating the works of Cicero. His orations provide insight into an age of political upheaval. Although no modern nation has Latin as its national tongue, students do use the language laboratory to help them with pronunciation and phrasing.

A four-year course of Spanish put special emphasis on conversational skills. Students study the language in the classroom and put into practice in our language laboratory, where students also listen to recordings of natives from other countries. The advanced classes read the Spanish novels *Marta y Maria* and *José*. Fridays are spent giving speeches and writing themes. Participants in the student exchange program this year were Kathy Drake and Sandy Kruse, who spent two months in Mexico last summer, and Madeleine Jacques, from Mexico City, who returned the visit.

Whitmer's Latin program begins with second year study. The first part of the year is spent on basic grammar and vocabulary. When the students have a working knowledge of the language, they begin translating Caesar's Gallic Wars. While these students follow Caesar through his many adventures and campaigns, the third year students learn about Roman history by translating the works of Cicero. His orations provide insight into an age of political upheaval. Although no modern nation has Latin as its national tongue, students do use the language laboratory to help them with pronunciation and phrasing.

During the entire four year French course, pamphlets, newspapers, posters, and menus in French familiarize the students with the French and French-Canadian language and culture in a way that no textbook can. Required reading includes French editions of the familiar books *20,000 Lieues Sous les Mers*, *Le Comte de Monte Cristo*, *Le Petit Prince*, and *Don Quixote*. For those who are interested in a more complete knowledge of modern France, the popular magazines *House and Garden* and *Reader's Digest* are provided.

Maureen O'Rourke — Latin, CHS, JCL, Ambition — to be a nurse, Appreciates — literature, Peeve — students who don't realize the value of an education

Janet Zucker — Spanish, Spanish Club, Ambition — to be an accountant or a teacher, Appreciates — music, Peeve — students absent on test days

Mrs. Barbara Nightingale — Spanish, Spanish Club, Ambition — "to live on a beautiful mountain," Appreciates books, Peeve — poor grammar

Leonard Kreinbrink — French, French Club, Ambition — to be a newspaper reporter, Appreciates — music in good taste, Peeve — noise called music of today's "

warmth, and culture of foreign lands.

Chris Loston, Elaine Gotthelf, and Nancy Hitchcock browse through French editions of popular magazines and newspapers looking for interesting articles

Mrs. Margaret Towe — English, Ambition — to be a teacher or a nurse Appreciates — art, gardening, Peave — irresponsible people.

Zina Albert — English, Ambition — to sip tea with the Queen in England Appreciates — languages, since they reveal character, Peave — people who are bored

Mrs. Margaret Koon — English, Bible Club, Ambition — to be a social worker Appreciates — music, Peave — tardy students

Composition reveals hidden talents.

The semester composition course is concerned mainly with the mechanics of the art of good writing. Special emphasis is placed on the composition needs of college-bound students. Varied assignments are made so that students may be familiar with the most common types

of college assignments. A second semester of creative writing is offered. Students are introduced to different composition styles in both prose and poetry, and they are encouraged to develop styles of their own.

Composition students learned to develop an idea quickly and write it down clearly and concisely by writing impromptu themes. An idea "stimulus" was furnished by the students or teacher each day. After the themes were written they were exchanged with other classmates and the teacher for criticism. On this day the class assembled a life preserver, a copy of 1984, and an arrow to form a group "stimulus"

Mrs. Judith Dearbaugh — English, Pep Club, Ambition — to teach, Appreciates — Broadway albums and musicals, Peave — irresponsible students

Darlene DeNune seems to deny Melville's picture of a powerful white whale, as she calmly picks one up to show the class.

Fears diminish as speech develops poise.

One of the two journalism classes prints the school newspaper, *Panther's Pause*, and the other edits the yearbook, the *Oracle*.

The English program includes not only courses designed to teach students how to communicate effectively by

writing, but also how to express their feelings by speaking. Besides the correct nomenclature, pronouns, and phrasings, students also learn proper outline and notetaking procedures.

Mrs. Elaine Shaw — English, Ambition — to teach music, physical education, Appreciates — classical music, Peeve — questionnaires.

Jolan Aufderheide — English, Thespians, Ambition — to write, Appreciates — "My own poetry," Peeve — carelessness.

Mrs. Mary Ann Stutz — English, F.T.A., Ambition — to be an English teacher, Appreciates — modern art, any type theater, Peeve — generalizing.

Mrs. Helen Dennis English Grade, Ambition — to be a nurse or librarian, Appreciates — students who follow instructions, Peeve — pessimists.

Anne Kingsley English Grade and Scroll, newspaper, Ambition — to be a foreign news correspondent, Appreciates — sports, reading, Peeve — inconsiderate people

Mrs. Connie Baeter English Ambition — to be a teacher, Appreciates — drama, musical comedy, modern jazz, Peeve — "a cluttered desk."

Literature opens doors to the world.

Sophomore English stresses the principles of English and provides students with a broad background in literature. Several weeks of the year are spent on grammar, and classes also use a grammar workbook. Background material includes the study of knowledge of ancient Greek and Roman characters is useful when references to them are found in books and poems. The sophomore program requires the reading of *Silas Marner*, *A Tale of Two Cities*, and *Julius Caesar*. Students also make poetry anthologies each year. Early in the year, the classes are taken to the library and are taught how to use it correctly. This knowledge is useful, especially during the junior year when more research work is assigned. Although only *Moby Dick* is

required reading, less class time is spent on grammar. Greater emphasis is placed on selections from the American literature book. Many essay contests are open to juniors. These prepare them for the increased amount of original composition done in senior English. More library and research work prepare students for college assignments. The whole year's study of British literature is mainly the study of poetry, and students themselves try their hand at writing in the styles of poets whom they study. All classes read *Hamlet*, *MacBeth*, and *David Copperfield*, which are required, and an assorted selection of works which varies from class to class.

To help them decide on a topic for their own poetry anthologies, Chrissy Mavrides and Diana Reimschuessel examine some that have been done by students in the past.

Lawrence Rochelle English, Jr. FTA Bowling, Ambition — to own a fireman's Dalmatian, Appreciates — a long Russian novel, Peeve — "TV's intellectual pop"

Nick Neuhausel, Cheryl Crocket, Dick Hansen, and Pat Kaiser run the potato race, one of five tests in our physical fitness program. The set of tests also includes the 50-yard dash, the rope climb, chin

ups, and push-ups. All students are graded at different times throughout the year and their improvement is recorded.

High standards demand stamina, skill.

In the fall when school started, students welcomed the opportunity to spend an hour class period outside on the playing field. Boys' physical education classes played pass-and-tap, soccer, and speedball. The five-day girls' classes played kickball, soccer, speedball, speedaway, and field hockey. Girls' two-day classes followed much the same schedule. Because of the lack of room in the gyms, basketball skills were practiced, but no games were played. With the first of December came the beginning of the four month-long tumbling program for the five-day and boys' classes. This year some girls' classes were able to choose a program of

basketball, fencing, dancing, and badminton instead of tumbling during the winter months. The gymnastic program was climaxed by the 29th annual circus in which students performed the skills that they had learned and practiced in class. Volleyball was next on the agenda, and was followed by blooper ball which ended the year's program. Equipment was purchased this year from a health studio. These new pieces of equipment were designed to exercise any parts of a person's body which might need strengthening. It was bought primarily for those students who are unable to participate in the normal physical education program.

Donald Stacy — Physical Education, Varsity Baseball, Ambition — to be a medical doctor, Appreciates — good health, Peeve — partiality.

Sally Matheney — Phy. Ed., G.A.A., Ambition — to teach or be a nurse, Appreciates — traveling, photography, camping, Peeve — waiting for traffic lights.

James Mohn — Phy. Ed. Football Track, Ambition — to teach and coach at Whitmer, Appreciates — good plays, Peeve — student body's attitude toward school events.

JOHN MATTIMORE — Social Studies, Ambition — to coach basketball, Appreciates — sports, music, Peeve — copying

activities in the world around them.

The study of geography literally encompasses the surface of the earth. After the basic knowledge of oceans, continents, prominent mountain ranges, bays, and landmarks has been mastered, individual countries are studied. The effect of land on the people, economy, and customs is analyzed.

Whitmer's sociology program stresses the individual and his purpose in society. Problems are defined, analyzed, and interpreted by each student, as they affect him in his daily life. Issues of the day, as well as age-old topics, are used as the subjects of class discussion and debate.

The study of American history teaches students to appreciate our country today, by showing them how it was founded and evolved. The causes and effects of civic, social, economic, and moral changes in the nation's development are studied in as many aspects as possible. A rudimentary knowledge of the Constitution prepares the student for another mandatory course, civics. Civics emphasizes the necessity for a working knowledge of governmental machinery so that citizens may vote intelligently.

By studying human culture from the earliest times, students of world history learn to understand the true origin and development of much of what has been inherited from past ages. The contributions of great people, states, and institutions to modern times are analyzed thoroughly. Contemporary history requires students to read the newspapers daily so that they learn of world occurrences when these things are "news," and not when they are "history."

Dennis Karsh combines proper military dress with a pure civilian smile to help recruit volunteers.

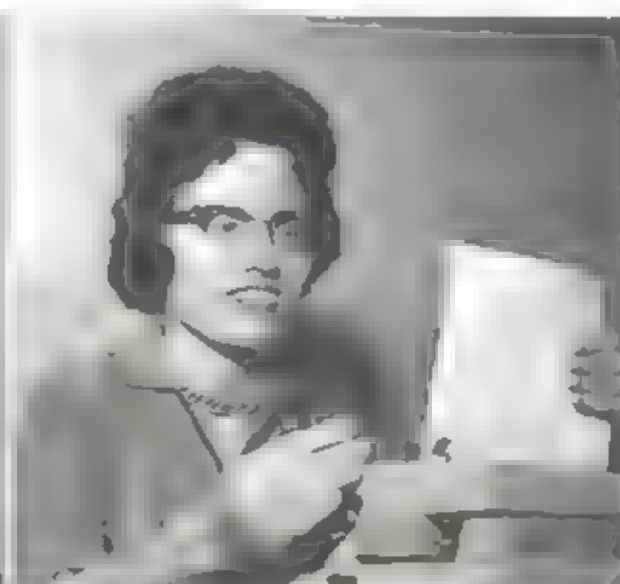

A football field serves as a scoreboard in typing class. Here Lois Mitchell and Tom Roth mark their own progress and move closer to a touchdown.

Typing techniques are an invaluable aid.

MRS. GERTRUDE SHANTEAU — Business, F.B.L.A., Ambition — to teach, Appreciates — music, Peeve — students who don't do their assignments

SUE HARTMAN — Business, Soph. Y. Teens, Ambition — to be a private secretary, Appreciates — art, Peeve — Question, "Are we doing anything important today?"

ROBERT LOWTHER — Business, Senior Hi-Y, Ambition — to be a commercial airline pilot, Appreciates — a good chorale group, Peeve — gum chewing

MRS. MONA JANE MILNE — Business, Ambition — to work with people, Appreciates — T.V. program, "The American Economy" Peeve — lack of beneficial television

Andrew Dieringer — Business, F.B.L.A.
Ambition — to be a priest, Appreciates — symphonic orchestras, Peeve — people who don't follow directions

Linda Van Gunten — Business, F.B.L.A.,
Ambition — none in particular, Appreciates — reading, Peeve — men drivers.

Mrs. Virginia Baker — Business, Senior
Y Teens, Ambition — to be an outstanding student, Appreciates — perfection, Peeve — carelessness

Shorthand supplies symbols for sentences.

In our world of growing technology, greater emphasis is placed upon clear and efficient communication than ever before. Typing helps solve this need because typing can be read easily, even though it is put on paper much faster than a person can write. Any student, no matter what his plans for the future, can benefit from a typing course.

A requirement that is often expected of secretarial applicants is skill in shorthand. By simply using symbols to represent sounds and words, the secretary can write as many as 120 words a minute. After one year of shorthand, students are expected to be able to write 60-80 words a minute; after two years 90-120 words per minute are required.

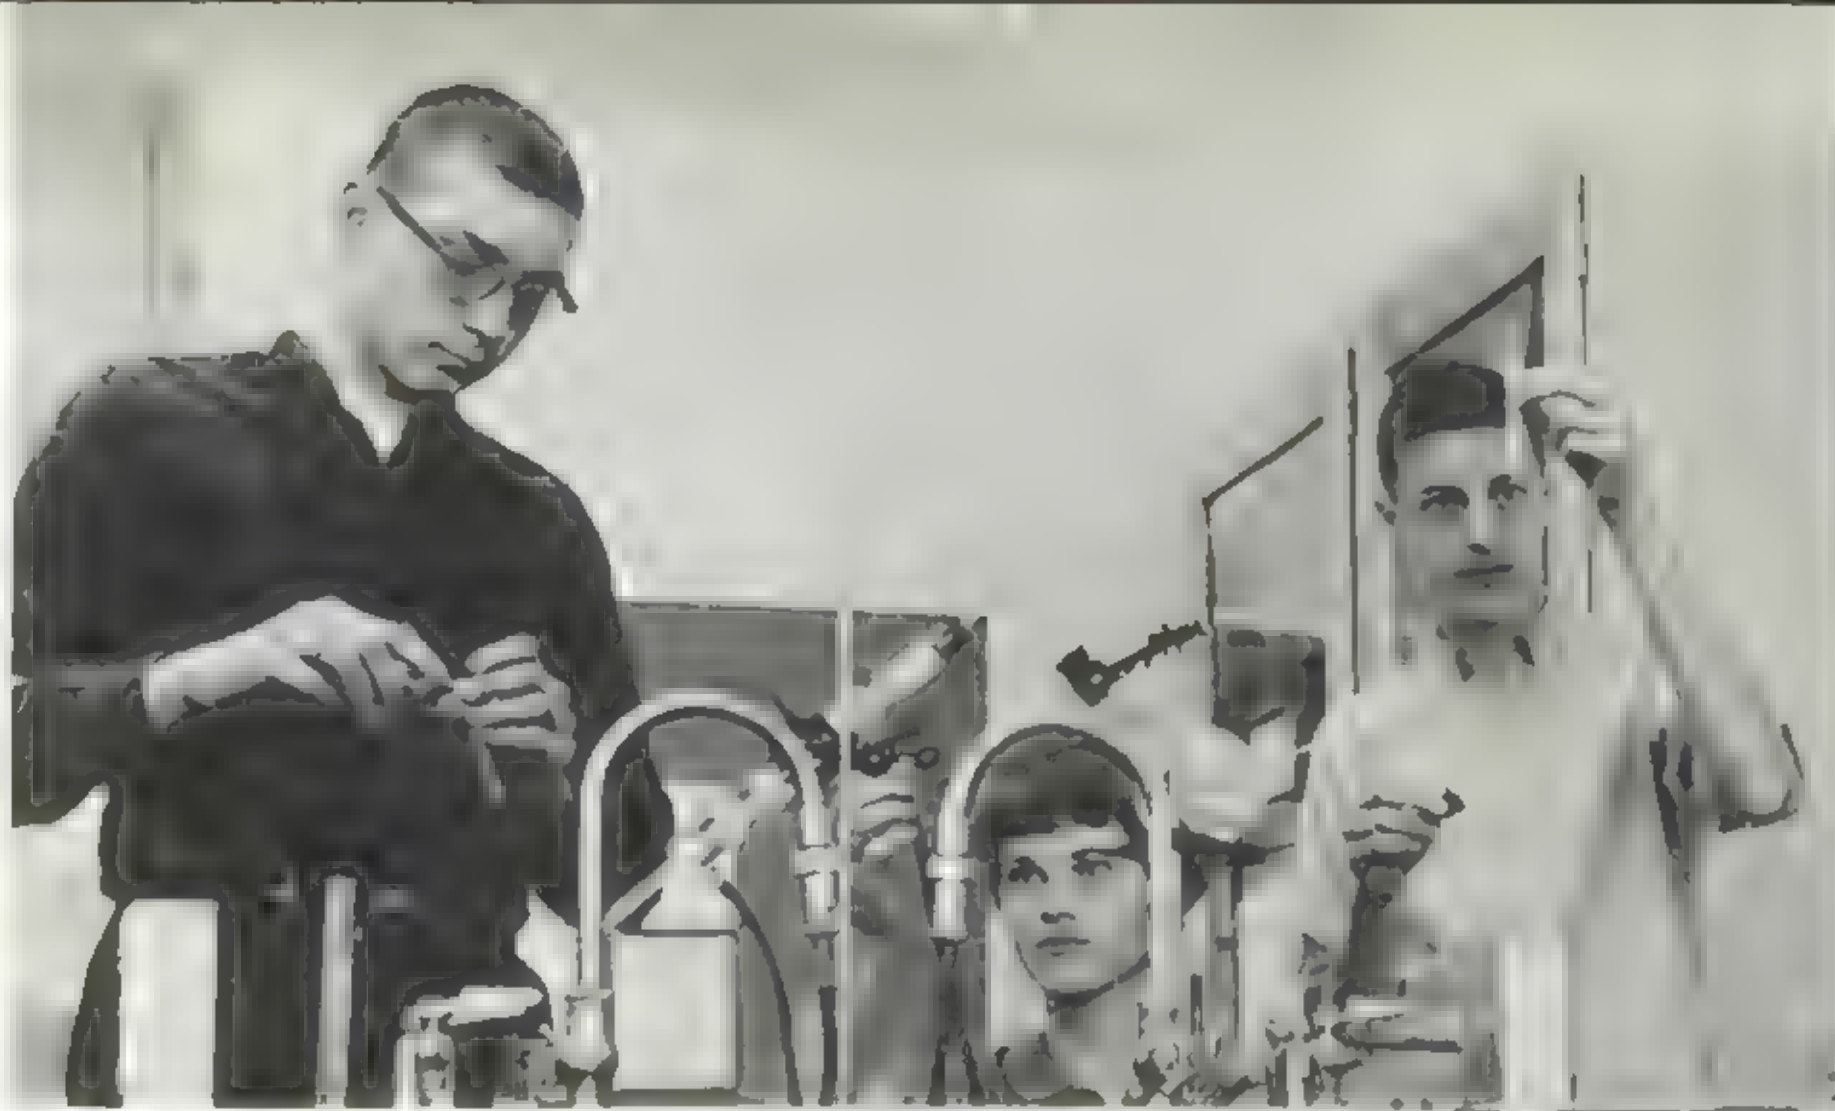

Many tedious office chores are being done by machines today, but often the machines are so complicated that a mere novice couldn't just "push a button" and make them work. The business machines classes learn not only how to operate these time-savers, but also how to take them apart to clean or adjust them.

Bookkeeping proves to be a useful course, no matter what a student plans to do when he is finished with high school. People are confronted with standard records and tax forms everyday. This course teaches the fundamentals of the system and provides a solid background for those who wish to study bookkeeping at a higher level.

Carol McHaffie checks her figures as she operates a bookkeeping machine

EDWIN KNEPPER — Business, Ambition — to direct a band, Appreciates — musicals
Peeve — not enough time to do everything I'd like to do

More than one pair of hands is required to complete this experiment quickly so Dick Knauer, Karen Carrick and Dave George each perform a different phase of the distillation test.

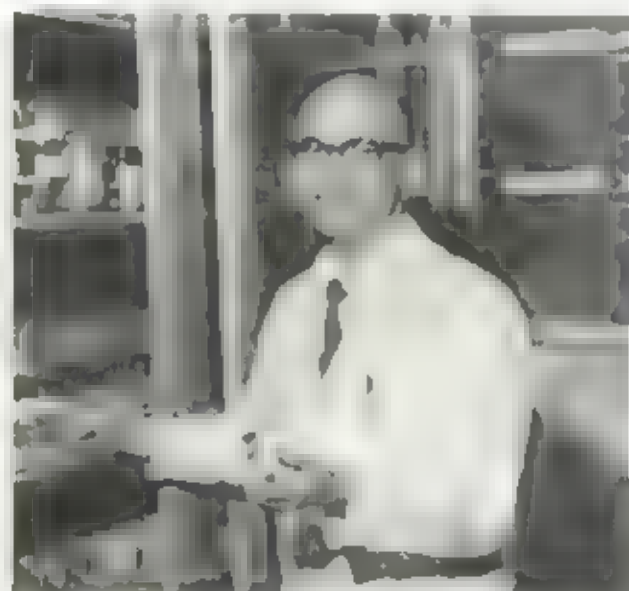

Courses probe into the chemistry of life

Chemistry, the study of elements and the changes which they undergo, is a typical science course. It is growing and expanding so fast that textbook material is often outdated and must be supplemented by outside texts and articles. The language of this science course is mathematics. The processes learned in math classes help to solve real problems that facts and laws new to the

students have presented. Periods in the laboratory are spent learning how elements and compounds react with other substances. When a sufficiently strong background in lab work has been established, students are given unknown substances on which they run series of tests to determine what the element or compound is.

Darryl Bowen handles one of the many preserved specimens in the biology laboratory to examine at closer range.

Norman Hunter — Science, Ambition —
to fly an airplane. **Appreciates** sym-
phonies. **Peeve** — Those horrible "poor
me" days.

a pilot, Appreciates — "areas in nature
not 'invaded' by man," Peeve — "Do we
have to do this?"

Lillian Steiner — Science Biology Club
Ambition — to be a medical technician
Appreciates — art, music, Peeve — pe
son who has ability, but no drive

Van Harp and Gary Wymer "bone up" for a practical
on the skeletal system

and matter.

Because the subject of physics deals with energy and matter, more time is spent by students in working problems than performing experiments. A sound mathematics background is necessary because all arithmetic skills learned since the fourth grade are used by these students. In physics, however, these numbers and processes take on new meaning; they are not just calculations to be worked, but problems to be solved. Unlike chemistry, problems deal with physical, not chemical, changes in matter. The broadness of this subject has lead to the division into branches of study: mechanics, heat, sound, light, electricity, and atomic. Our physics classes spend some time covering the basic principles of each branch, but because of the subject's complexity our one year program merely scratches the surface.

The study of systems and their functions is taken up in the physiology classes. A great deal of memorization is required so that students will know what to look for when they dissect their cat cadavers. Charts and a human skeleton help classes to learn the locations of muscles and bones. But students must also be able to identify muscles on a living human body. When time comes for this practical, a student comes in and the class identifies the muscles that the teacher points out.

Gerald Ice — Science, Ambition — to succeed, Appreciates — anything that shows creativity and foresight, Peeve — need for enthusiasm at athletic events

Ed Gibson — Science, Jr. Hi-Y, Reserve Football, Ambition — to be a successful coach, Appreciates — classic, pops, and Dixieland music, Peeve — "wise" athletes.

Labs explore phenomena.

Two biology courses are offered at Whitmer. Practical biology is suited for the student who wishes to go no further in science. It presents a general picture of the subject applicable in everyday life. College prep biology is patterned after college classes. It familiarizes students with the classroom and laboratory techniques used in colleges. The plant kingdom is studied during the first semester. At this time students learn the proper procedure for the microscope and the equipment used with it. Photographs taken by the teacher under the microscope are marked and identified so that students can see what they are supposed to study under their own microscopes. Second semester features dissection and laboratory work until classes begin to study the larger forms of higher life. Lecture then replaces lab work to finish the year's program.

The organisms seen in a drop of stagnant pond water would probably include this common microscopic plant life. Greatly magnified, the spirogyra in the foreground is seen in a stage of reproduction. A filament of the algae floats to the right with green bands of spiralling chlorophyll twisting through it.

Dennie Dew and Jed Mewborn perform an experiment illustrating the Kundt's effect. As the frequency changes, the sound waves cause their compressions and rarefactions to be seen in the wave formed in the flames.

TOP Mrs. Vivian Bertram — Math, Ambition — to teach, Appreciates — "free time, when I have any" Peeve — questionnaires

THIRD: Mrs. Vera Fontaine — Math, NHS, Ambition — to have fun, Appreciates — athletics, Peeve — students who take up nothing but space.

SECOND: Mrs. Esther Kalmbach — Math, NFL Forum, Debate, Ambition — to teach swimming, Appreciates — debating, Peeve — forms to fill out

BOTTOM: Mrs. Mary Karazim — Math, English, Cheerleaders, Ambition — to travel, Appreciates — "smiles on Monday mornings!" Peeve — pointless meetings

Math stimulates thinking.

Plane geometry, the study of figures drawn in a single plane, trains students in correct methods of thinking. The facts learned in geometry are useful for artists, designers, machinists, and carpenters, but the habits of thought learned are helpful for everyone. The theorems and postulates that today's students use are the same ones that men first proved centuries ago. But today's students put these ancient mathematical truths to modern, practical uses in the study of aeronautics, trajectory, and map reading.

Algebra provides a tool for the quick and easy solution of varied and everyday problems. Standard formulas and normal logic show students progressively easier ways to solve problems, until they are ready for the advanced algebra program. Advanced algebra introduces students to higher equations, logarithms, graphs, and plotting. Accuracy of calculation is stressed so that these higher mathematical procedures are not rendered useless.

The basis of senior mathematics is trigonometry, the study of triangles. By the use of formulas, trigonometry students learn how to measure distances indirectly. Surveying, engineering, physics, astronomy, and navigation all use trigonometry and its principles.

Glenn Hoase examines a project illustrating the rules of probability

Harmon Meihls — Band, Ambition — to be successful, Appreciates — fine music plenty of relaxation, Peeve — disrespectful "kids"

Clyde Brown — vocal music, choir, glee club, Ambition — to fly as a pilot, Appreciates — outdoor sports, Peeve — T.V. commercials

Musicians combine rhythm with harmony.

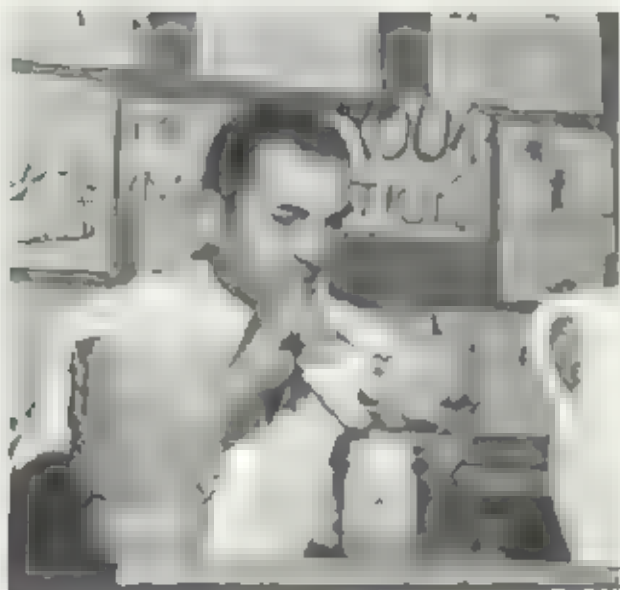

Listed high in cultural achievement is appreciation of music. The best way to learn to appreciate music is to listen carefully before performing it. With the guidance of experienced teachers, students learn to listen to an entire musical score and not just the dominant melody. The band meets as a class five days a week during the school year. Members even spend one whole week at band camp before school begins to practice their playing and marching. The marching band entertains during

halftime at home football games, and a small pep band plays at pep sessions. The concert band performs at school assemblies and public programs during the year. Our vocal program includes the sophomore girls' glee club, which meets two days a week for practice, and the choir. The choir is made up of boys from all classes and junior and senior girls. They practice five days a week and sing at special assemblies and a Christmas concert which is open to the public.

Music students must practice to give a polished performance. Besides group rehearsals in the main band room, private practice rooms are provided in which students may practice without disturbing any one else. Dick King and Dave Work often make use of these rooms. In addition to rehearsing the music, band members must also learn the marching and close-order drill routines that are used in football halftime programs.

Paul Slovak — Fine Arts, Ambition — to act, Appreciates — art, musical shows records Peeve — students who do not support school events

Canvases come alive with color as art students continue to add the finishing touches to their masterpieces.

Art and Home Ec. utilize creativeness.

The fine arts are explored in Whitmer's art program. By studying ancient masters and their styles, each student develops his own distinctive style in all mediums in which the students work. They experiment with paints, paper, glue, and metal to find in which area of art their talent lies. Even if students find that they possess no one great ability in any single field, after taking one or more art courses they develop an appreciation for fine art in its varied forms.

The art of food preparation is taught at Whitmer in

our well equipped kitchen. The art of menu planning is taught so that sweet and sour foods are properly balanced with the correct assortment of vitamins, etc. Another skill they develop is sewing. Although ready-made garments have replaced home-made clothes in most cases, basic sewing techniques are valuable to every modern housewife. Our program offers an opportunity for future homemakers to practice the household tasks that will be theirs in later life.

Our modern home economics facilities include a home complete with kitchen, living, dining and bedrooms. Here Roberta Shipman and Kathy Metz enjoy themselves much as they would in their own bedrooms.

Frances Kern — Home Economics, Ambition — to be an architect, Appreciates — early American architecture, Peeve — school bus

Using a lathe in the machine shop, Bill Jones makes a screw for a vice

Don Lybarger, B I Wallin and Tom Mzele analyze a motor to determine its malfunction with the standard for motor

The trade and industrial machine shop course prepares students for a place in industry. Its program familiarizes the students with machines common to tool and die makers, machinists, and machine repairmen. The actual use of these tools and machines in class is balanced by a course in related science and trade theory. In these classes, the students learn the blueprint reading, mathematics, and technology that is necessary for them to do their jobs correctly

In auto-mechanics, the boys are able to learn and practice their lessons on cars that have been brought in for service or on their own cars. They are free to make necessary, supervised repairs in class. A required part of this course is the related science class which gives the boys the technical knowledge needed to make a mechanical repair

Classes simulate on-the-job conditions.

Marion Abel — Auto-mechanics, VIC, Ambition — "to wear a derby," Appreciates — the study of nature, Peeve — derbys are out of style.

Thad Speier — Trades and Industries, VIC, Ambition — to teach, Appreciates — modern art, Peeve — parents who leave discipline to the school

Harry Graves — Trades and Industries Senior Class, Ambition — "to be a good American citizen," Appreciates — traveling, Peeve — people who procrastinate

Students in the art metals class practice gas welding in the shop welding booths

Roger Weber — Art Metals Shop Math
Golf Ambition — to be an architect, Ap-
preciates — his family and current events
Peeve — "tired feet"

A creative industrial arts course taught at Whitmer is the art metals course. Here students learn the characteristics of different metals and the problems involved in working with them. Students learn the correct and most effective use of hand tools and also the proper procedures used in working metals on machines. Both electric and gas welding are included in this program

Our woodworking course is useful not only for those students who want to earn their living by working with wood, but also for those students who realize the convenience of knowing how to make simple household repairs. Students are introduced to the principles of good craftsmanship and design, and are better able to choose and execute a project for class.

Del Johnson — Woodworking. Ambition — to grow up," Appreciates — good health, Peeve — crazy people

Boys learn skills used at work, home.

Several sophomore woodshop students learn the fundamentals of spindle turning on the wood lathes in the shop

Ken H. sends a project that he has made in class, a gun rack

Jerry Nemire carefully shades his drawing of a model home

RALPH PRITTS — Drawing, Ambition — to be a coach or a teacher, Appreciates — hunting and sports in general, Peeve — tardiness

Specialized courses demand accuracy.

Prospective engineers, designers, architects, and drafts men find mechanical drawing a necessary course. Each of these professions calls for the ability to visualize objects in three-dimension and to draw them accurately. These men must take material, stress, use, temperature, and tolerance into consideration when making the drawings from which blue-prints are made. The students in our program are taught the rudiments of drawing. They then utilize these principles when making their own drawings. Introductory assignments call for the exact reproduction of another draftsman's work. As students' techniques improve, however, more difficult and practical problems are presented to prepare them

for situations that they will meet on the job

The mechanical skill of driving a car can be mastered in a relatively short time. Safe driving, however, requires both manual skill and special knowledge. Before a driver can sit behind the wheel of our training car, he must be familiar with Ohio's driving laws. The Ohio State Driver's Manual is used as a regular textbook. Students are trained to think ahead, and to anticipate situations in traffic. This attitude of "defensive" driving keeps them alert to any emergency that might occur. A trip to the Traffic Court and pictures of real accidents illustrate to the class what happens when traffic laws are broken or the defensive is let down.

Classmates watch as Mike McHaffie tests Gene Nadolny's reactions to prove that drivers can't "stop on a dime."

JOHN HERSLAND — Driver Education, Athletic Director, Ambition — to be a major league baseball player, Appreciates — good music, Peeve — gum cracking

School crews give Whitmer its sparkle.

Every school, no matter what its size, needs a special staff to keep the school running smoothly. Although Whitmer's staff of 26 is large, it works together efficiently and well. The little tasks that most students take for granted are performed by this corps of school personnel. The first students to arrive at school are likely to meet members of the kitchen staff. These women re-

port for work at an early hour to prepare lunch for hundreds of Whitmer students every day. Long after most students have gone home, custodians walk from room to room, cleaning the classrooms. They provide us with a neat and orderly atmosphere in which we can do our best work.

ROW 1: L. Keeler, L. French, E. Kreps, J. Dubendorfer, A. W. W. M. Selter, J. LeFeaver. ROW 2: P. Henry, J. Dickerson, G. Good

M. Halub, B. Davis, B. Baum, R. Gill, M. Blessing, A. Morrett, I. Nicely, L. Starkey

The school library is located on the second floor above the main lobby and administrative offices. One glass wall and fluorescent

lights keep the room bright on the dreariest day. Newspaper and magazine racks keep library material up-to-date

Knowledge and experience awaken new

Surrounded by the material with which they work each day, Mrs. Lemerand and Mrs. Coney catalogue new books in the library

As Whitmer continues to grow in size, the library increases in importance. Whitmer is fortunate to have the modern Earl B. Driver library in the school building. Its material is especially geared to the needs of high school students.

The high windows, which cover one wall of the room, and comfortable tables and chairs contribute to an atmosphere that makes studying easier. Besides the rows of shelves of multi-colored books, eye-catching and interesting displays are found here. Work rooms border the main room on two sides and students who work in the library repair books in these rooms. If more information is needed by a student than our library can supply, a branch of the Lucas County Library, located on our campus, can supply the required material.

Mrs. Coney has been the librarian at Whitmer for three years. Her one-time ambition to be a teacher and her interest in reading are reflected in her choice of careers.

Although Mrs. Alice Lemerand has been a library assistant since the new building was opened, she first aspired to be a nurse. Reading, swimming, and bowling are her hobbies, and she dislikes anything that is unorganized.

Their positions as Boys' and Girls' Deans often call for Mr. Smith and Mrs. Schlegel to confer about matters of school policy

interests and challenge searching minds.

The school's counselors perform duties concerning all students at Whitmer. The girls' and boys' counselors keep attendance records, supervise the health rooms, and help students with personal problems. The guidance counselor administers psychological, aptitude, and intelligence tests. He makes available applications for and results of state and national college entrance exams. He helps students plan their schedules at Whitmer and their careers at college.

Mrs. Irma Schlegel chose a teaching over a law career and began teaching at Whitmer thirty-four years ago. She enjoys traveling and watching ball games. She most admires in people the ability to "get along well with other people."

Mr. Vern Smith entered the teaching profession rather than the ministry twelve years ago. His duties as dean and as head football coach enable him to do the work with boys that he so enjoys. He tries to develop the traits which he admires: strength, character, courage, and truthfulness in the boys with whom he works.

Mr. Paul Driscoll has just completed his first year at Whitmer after spending several years in California as a guidance counselor. He originally planned to be a resort hotel manager, and these plans are reflected in his hobbies of skiing and swimming.

Mr. Driscoll keeps many reference books and brochures in his office to help students choose and prepare for a life's occupation

Mrs. Margaret Scofield — Secretary to Mr. Schaller

Mr. Schaller, new assistant, is no newcomer to field.

The entire student program is run through the office of the assistant principal. He supervises the body of representatives from each school club known as Inter-Club Council. The council organizes and controls the co-curricular activities for which Mr. Schaller is responsible. Class scheduling is handled and records of students' classes and grades are kept in his office.

Mr. Glenn Schaller has completed his first year as assistant principal at Whitmer. After attending Bowling Green State University and the University of Michigan he entered the field of education because of his admiration for youth and learning. He has had experience in elementary and in junior and senior high schools. His former ambition to be an athlete was partially realized when he became a coach at Clay High School.

Before accepting his appointment in the Washington Local Schools, Mr. Schaller served for two years as the principal of Fassett Junior High School in Oregon. He enjoys seeing students achieve something that they thought impossible and is irritated by students who do not achieve.

Mrs. Margaret Scofield is responsible for the announcements and the public address system. She also types the absentee list every day and records grades at the end of each grading period. Eligibility lists are turned into her office and she sends students transcripts to the colleges to which they apply. In her spare time Mrs. Scofield enjoys camping, yard work, and reading.

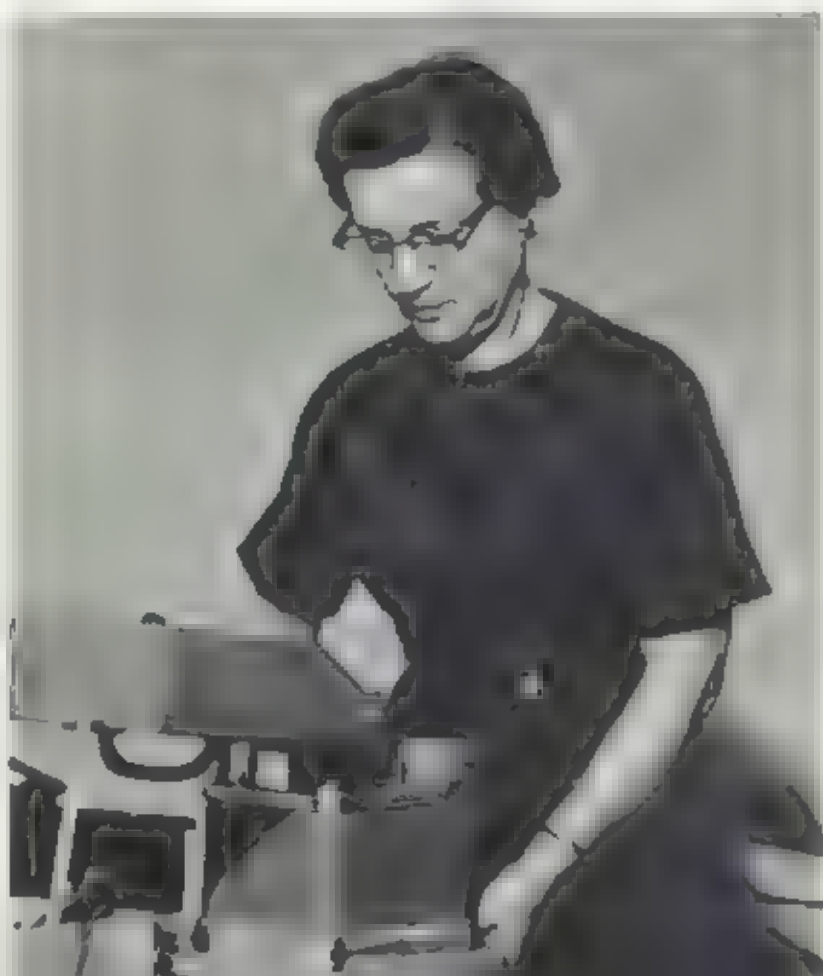

Mr. Davis ends ninth successful year as principal.

Mr. Harvey Davis as principal of Whitmer is head of the faculty and administration. He presides over faculty meetings and conducts all matters with the Board of Education and the Superintendent of Schools. School policy decisions are issued from his office, and school files and records are kept in a vault near his outer office.

For the past nine years Mr. Davis has served in the administrative post of principal although he has been a member of the faculty here since 1947. Two days before entering college, he impulsively decided to study education rather than medicine. After graduating from Northwest Missouri State Teachers College and serving in the army, he began teaching industrial arts at Whitmer. His ability and genuine interest in students served him well during his years of teaching and serving as boys dean and principal. He enjoys listening to good music and lists his peeve as people who don't follow directions.

Mrs. Elsie Miller runs the duplicating machines at Whitmer. She has trained students to work in her office to help run off newsletters, notices, tests, and worksheets. She keeps all the financial records for the school and its many organizations. She supplies check vouchers, checks, and current balances for the club treasurers. Mrs. Miller enjoys playing the organ and reading for relaxation.

Mrs. Elsie Miller — Secretary to Mr. Davis

Varsity Cheerleaders Mrs. Kingdon Advisor Cheryl Crockett and Bowler Candy Moore Linda Syl-
ger Jo Myers Pat Kaiser Jerry Hartman

Enthusiastic varsity keeps spirit alive.

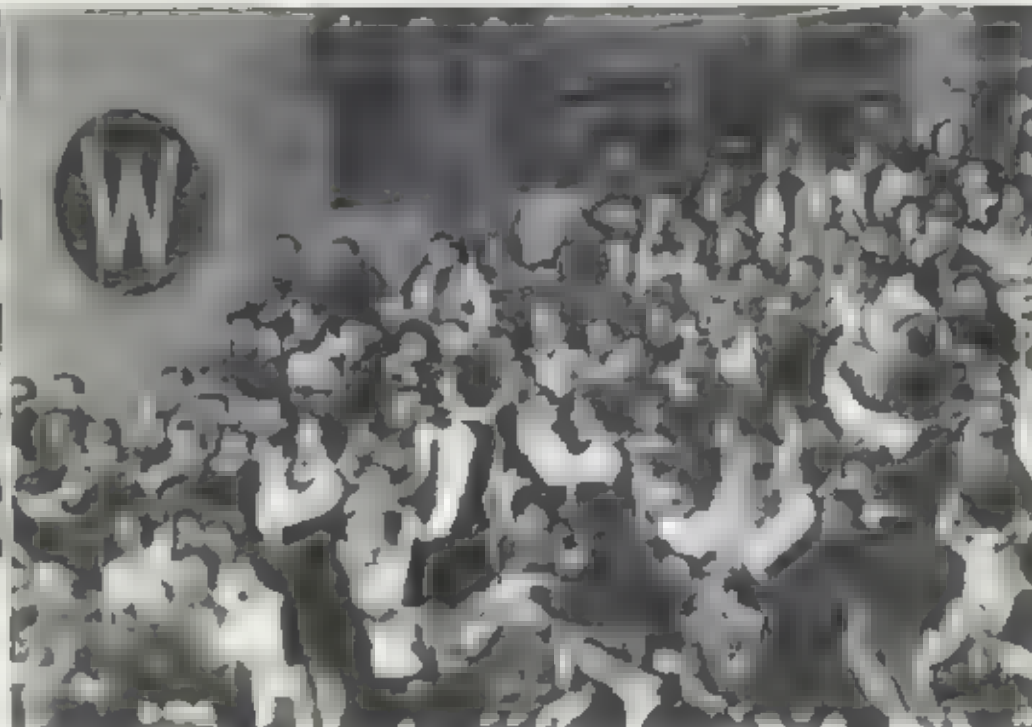

Chilling in her Grey Panther suit, Connie Lohay keeps warm at a chilly football game.

Our cheerleaders are the only ones cheering cheer as they offer encouragement to the athletes on the field.

Cheerleaders wish the boys "Good Luck" before the game

Shouts of approval blanketed the stands as the Panthers sank a field goal

Reserve cheers spark class champs.

Reserve Cheerleaders Judi Benner, Cheryl Rockwell, Debbie Rankin, Jan Kaufman

At Whitmer much of the emphasis placed on school spirit and the encouragement of good sportsmanship is due to the spirited attitude of our cheerleaders. Both varsity and reserve squads, with their adviser Mrs. Karazim, try to keep team support and sports promotion at their highest peak. One of the most popular ways in which the students can show the team that they're behind them is through pep sessions. These assemblies are planned by the cheerleaders and the cheering mascot, Connie Laney.

The try-outs take place for two weeks in the spring. The final selection is made by a panel of judges which includes faculty members and senior cheerleaders.

Midway in the basketball season, reserve cheerleader Jan Kaufman moved to California and was replaced by Karen Frankel.

Like athletes, these girls start practicing long before the season begins. Early in the summer, weekly practices are held at the homes of different girls. They also attend clinics at which they learn new cheers and listen to new cheerleading ideas.

Tri-captains and coaches unite to

The 1962 Panther grid team finished its season this year with an even record of five wins and five losses. A more promising season is hoped for next year when the 1962 reserve champions become eligible for varsity competition.

Our first league encounter was with the Clay Eagles. Despite the rain, hundreds of Whitmer supporters turned out to watch the Panthers win the game and also to win back the prized cup.

The next two league games were lost, but our conquest of Sylvania pulled us back into the winning ranks. The team finished the season on a winning note with a decisive victory over the Bedford Mules.

Post season honors came to four varsity teammates, Gene Kowczynski, Andy Pease, Jerry Wauford, and Gary Wymer when they were placed on the all G.L.L. offensive and defensive teams.

Faces of alarmed players reflect the dismay of their teammates as the opponents recover a fumble.

young basketball team perks up as season

Fine team effort and spirit was shown by this year's Panther basketball squad. Although it was a relatively new team with no starters back from last year, the boys played well together and ended the season with a 7-11 over all record and a 4-6 record in league play.

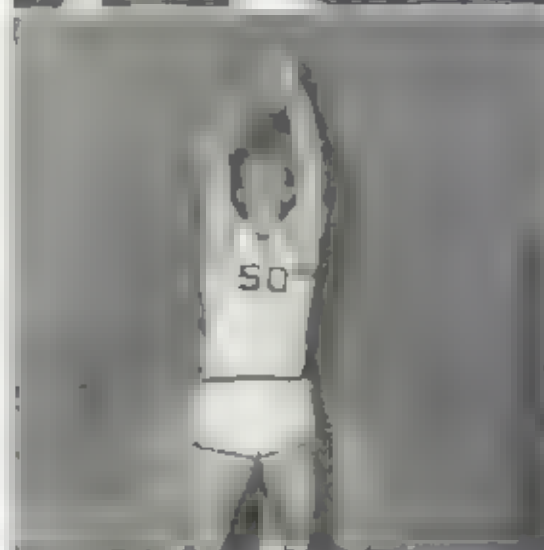

The season got off to a poor start as the first three games were lost to tough opponents, but the Panthers bounced into the winning column in the fourth game by defeating the Waite Indians.

The first round of league action began with a loss to the G.L.L. champs, Rogers. As the season progressed, however, a definite improvement could be seen in the team from week to week. Sylvania's close, one-point victory on their home court was one of the most thrilling games of the season. The Panther squad battled down to the wire and only lost the game in the final seconds of play. The half-way point of the season was marked by a resounding victory over Bedford. The team completely over-powered the Mules on their own court as we coasted to a comfortable twenty point victory.

The end of the season showed a remarkable spurt in the team's play. We avenged our losses to Clay and Sylvania, by winning by generous margins. Both school and team spirit rose higher with each win. In the final game of the season, against Bedford, the Panthers racked up 78 points for their highest score of the year.

Wrestling is a comparatively new sport at Whitmer. The first team was organized in 1952 and was coached by Mr. Vern Smith. Since 1959, the team has been coached by Mr. Steve Kerlin. Unlike many other sports, wrestling is an individual effort rather than teamwork. Eleven matches are wrestled in separate weight divisions, and each match score contributes to the team score.

A good season was enjoyed this year by the Panther wrestling squad. Completing the season with a 7-6 record in dual meets, the matmen placed second in a quadrangular meet held in Lakewood, Ohio, and third in the G.L.L. Tournament hosted by Whitmer. With only one letterman returning from the 1961-1962 season, the young team made a very favorable showing, and promise is seen for an even better season next year when fourteen lettermen will be back on the squad.

The team featured outstanding wrestlers in 103 lb. Tom Kwiatkowski and 175 lb. Dale Harcourt. Tom and Dale, both juniors, won G.L.L. championships in their respective weight divisions, and Tom went on to place second in the district meet. Team Captain Greg Haase was our other G.L.L. champion, winning in the 165 lb. weight class. Greg also captured first place in the district meet, enabling him to compete in the state tournament in Columbus, where he placed fourth in the state.

Pins scatter as bowlers chalk up marks.

Whitmer's bowlers are grouped into two teams. Members are selected for the first team on the basis of their individual averages. Before each match the member of the second team with the highest average, challenges the member of the first team who carries the lowest average to a match. If the challenger wins, he becomes a member of the first team. The teams, coached by Mr. Rochelle, practiced on Wednesdays after school at either Jug's Bowling Center or Douglas Miracle Lanes. On Saturdays the teams met at Great Eastern Lanes in Oregon for their scheduled matches. Our squads met the Bedford, Clay, and Port Clinton teams three times each during the October to March season. Perry Doerman, who was captain of the first team, carried the high average of 164. The second team of keglers was captained by John Bretzloff. Team number one placed second in the league.

Harry Kastner shows good form as he practices for the big game against Clay.

Baseball team puts up a good fight on

The 1962 Varsity Baseball team, with five returning lettermen had considerably less than a good season. Many of the games were close and were lost only in the closing inning of the game. The team started the season with three straight losses, but in their fourth game, against Clay, the fighting spirit and general excitement ran high. The Panthers were ahead 2-1 in the fifth inning. By the bottom of the seventh, the score was tied with bases loaded, and a run was driven in by Gary Wymer to win the game. After two more losses, the team defeated Bedford soundly, with a final score of 11-1. Three games later the Panthers evened the score with Rogers, who had beaten them earlier in the season, by defeating the Rams 3-2.

Coming in for a run, Rod Jenkins looks back to check the action at third base

Heath Wingate proudly accepts the 1962 Dale Crow Award from Mr. Davis

Dale Crow

Heath Wingate was awarded the Dale Crow Memorial Trophy at the 1962 Honors Assembly. He received this recognition because of his exceptional scholastic and athletic standing.

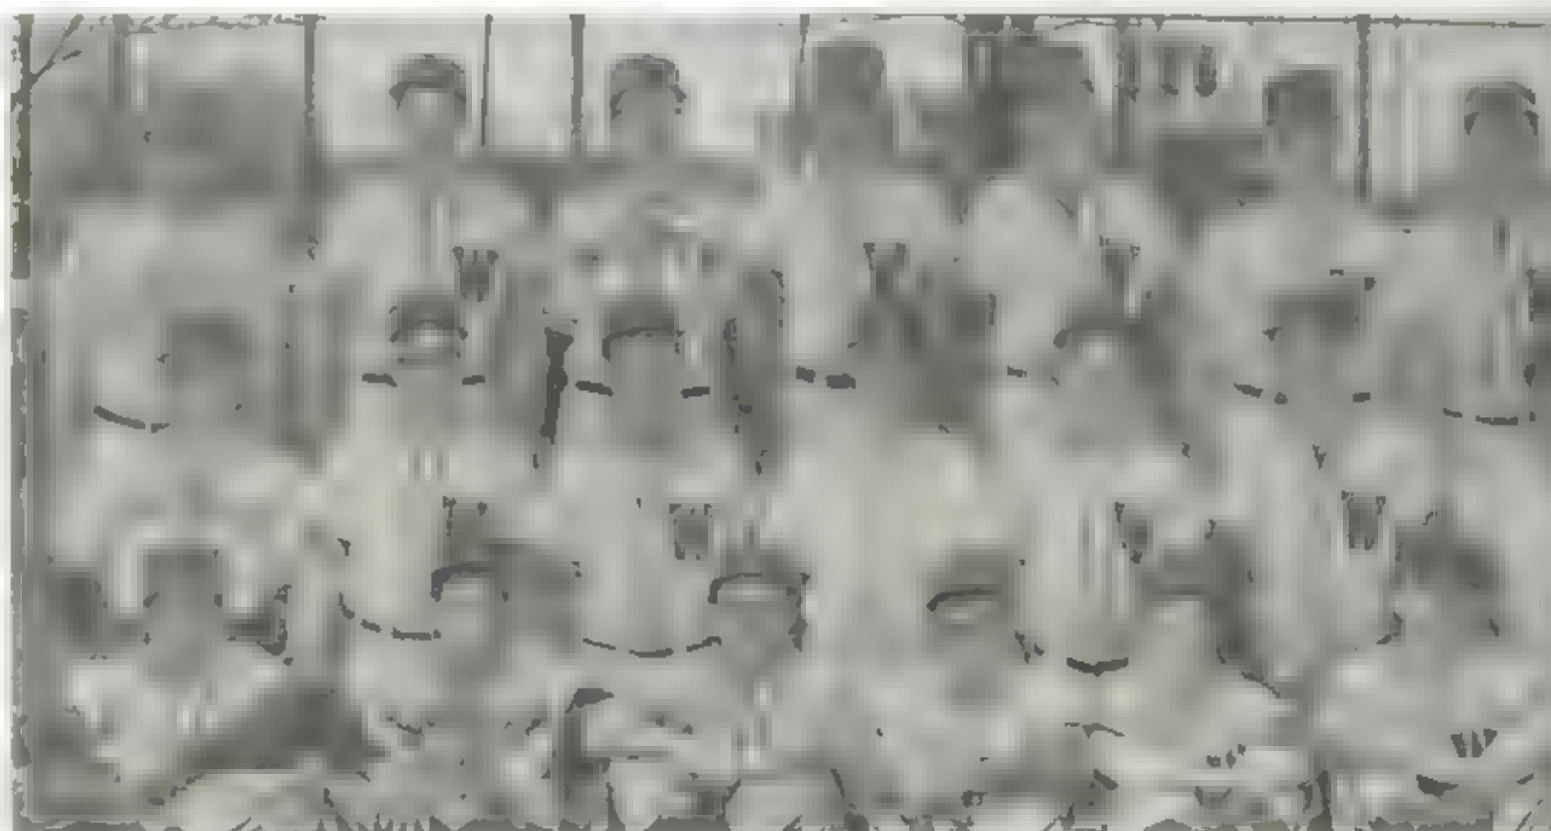

Heath played both reserve and varsity football, basketball, and baseball. He was an all GLL member of the Blade-Times football team. Besides his sports activities, Heath was a member of the Hi-Y, Varsity W, and

was elected to Honor Society in his junior year. He is now attending Bowling Green State University

Dale Crow, himself an outstanding scholar and athlete, attended Whitmer. After graduation from the University of Toledo, he returned to Whitmer as a teacher. When World War II broke out, he felt called to serve his country, and joined the Navy. He was killed while flying a mission over Wake Island

The golf team compiled an impressive string of five wins during the eight-meet season in 1962. Among the honors which the team received were third place in the Bowling Green tournament, second place in the Great Lakes League, and first place in the Toledo District Golf Meet. Ours was the first of two teams in the Northwest district that went to Columbus for the State Meet. Ted Rennels, an individual medalist, Marvin Alexander, John Fisher, and Paul LaCourse competed in the tournament.

Most of the season's regular matches were played at Sunningdale Golf Course, where Ted Rennels and John Fisher proved to be consistently long off the tee. The greens were not neglected either, and as a result, our slamming, chipping, and putting Panthers parred and birdied their way to the State Meet. The three returning lettermen, Marvin Alexander, John Fisher, and Paul LaCourse will have had one year's experience on the Columbus links

to achieve excellence and prominence.

Whitmer — 66½ Rogers — 51½

Slow track doesn't slow team

Whitmer — 66 Ottawa Hills — 24½

St. Francis — 57½

We take them on two at a time

G.L.L. meet 2nd place

Dave Saetzler takes a practice jump before the pole vault competition begins

The 1962 Panther Cindermen ended the season with an impressive 7 — record. Leading the team throughout the season were double and triple winners Ed Foley and Dave Carver. At the first meet we set the pace for the entire season by winning nine of the fourteen events with four second places. Our third opponent, Libbey, sent a team composed of sophomores and Jun-

iors to the Whitmer oval to be soundly defeated by our trackmen. We split events with Bedford but our overbalance won the meet. This winning streak was stymied by Clay, but we bounced back to win a tri-meet with Maumee and Bedford, and swept on to win the rest of the season's meets. One of our cindermen, Bill Myers, went on to the State meet in Columbus

one loss as they place second in GLL.

With a final burst of speed, Dave Carver breaks the tape to win the hundred-yard dash

Ed Foley takes the high hurdles a fraction of a second behind his opponent

into enjoyable and entertaining music.

Whitmer's instrumental music program is open to any student who can play a musical instrument. Members of the marching band began the year's musical program two weeks before school started when members met to practice the musical numbers and marching drills that were needed for the football halftime entertainment. The last week of this training was spent at Camp Palmer near Fayette, where the junior high school bands joined them. Special routines were worked out for Band Night, which is traditionally held on the night of the first home football game. One program theme this year was Meredith Wilson's "The Music Man." The band played songs from and spelled out the title of "The Music Man" at one show. It also formed a barber chair, a horse and wagon, a trombone, and a cornet. In another show a Las Vegas horseshoe, the trademark of the Diamond Horseshoe Nite Club, a lucky four-leaf clover, and a pair of dice were formed.

When football season ended the marching band became a concert band. It turned from marches to popular tunes, show tunes, and classical music and during the year presented a public concert, which was also given for the student body. In the state band, which also played at this time of the year, the emphasis was upon dance music, jazz, blues, dixieland, and swing. Just as much importance was placed upon studying the various styles of popular music as on playing them.

Mr. V. offers his comments about the performance at an arrangement.

Half-time shows uphold fine reputation

Above: A concert was featured in the opening show as the band played a crisp March with much.

Below: Whenever the band played the Alma Mater, it formed this

new type letter, which was adopted this year. Mr. Mahls directs his students as the band practices in the field.

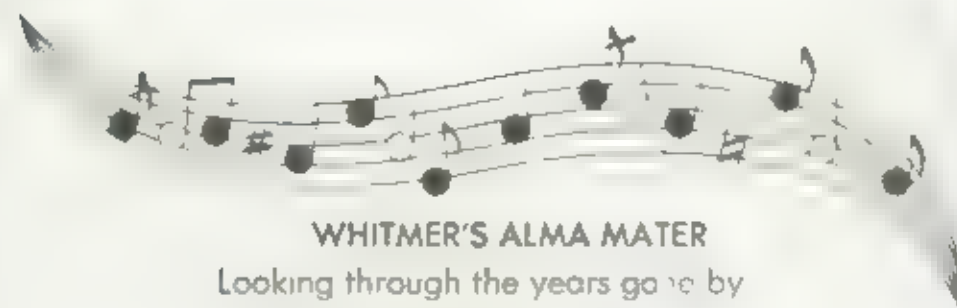

Part of the Las Vegas show featured the majorettes in a dance number. They formed a chorus line and twirled the umbrellas as the band played "Let a Smile be Your Umbrella."

Bill Datter, the drum major, has led Whitmer's marching band on the field for the past three years. He finds time to practice even though he is busy in class and club activities.

of Whitmer band.

WHITMER'S ALMA MATER

Looking through the years gone by
We see old Whitmer's banners fly
Loyal to the maize and blue
Ever are her students true
We shall love and ever praise
Whitmer till our dying days
Looking through the years gone by,
We see old Whitmer's banners fly

Our school is loved by old and young,
For her valiancy unsung
Superior in both sports and deeds,
In most every art she leads
We shall ever live and fight
For the love of Whitmer's right
Honor to our school we bring
For her valiancy we sing

Colorful choir robes add sparkle to

One of the two vocal groups at Whitmer is the sophomore girls' glee club. They sang at the sophomore Christmas assembly held in the auditorium the day before the Christmas recess. Members of this group can join the choir in their junior or senior year, although boys may join the choir in their sophomore year. The choir presented musical programs at the school's religious observances, and at a public concert held in our auditorium at Christmas time. Another concert was held

In May with the choirs from our two junior high schools. Other special spring programs for which the choir practiced were the annual senior day assembly, the Baccalaureate service, and Commencement exercises. The peak of the choir's excitement came as the new choir robes arrived. The royal blue and white robes, decorated with an Old English style W, replaced the old dark blue and yellow ones in time for the Christmas programs which the choir presented.

Impromptu Christmas entertainment featured choir members singing in the halls and lobby to put their classmates in a holiday mood.

Panther's Pause

Whitmer has had a newspaper since 1929. At one time the newspaper staff also published the school yearbook. The mimeographed papers of the past prohibited the use of pictures, but with the use of the off-set printing process, photographs can now be reproduced clearly. This year's staff has added some new features, including the changing of the paper's name to **Panther's Pause**, a column reserved for the faculty each issue, and increased editorial comment. Students themselves are encouraged to write letters to the editor and express their views on school matters. In the spring, the staff attends an annual convention where judges rate northwestern Ohio high school newspapers. The qualifications for this newspaper staff are the same as those for the yearbook staff.

Oracle

The first Oracle staff was established in 1929. It published a yearbook only forty-three pages long consisting of pictures of the faculty, members of all four classes, organizations, and sports. During the years of the depression, a paperback booklet with no pictures was published by the combined staffs of the Flying "W" and the Oracle. In later years the Oracle began to publish, and has continued to publish, an attractive hardback book featuring the school's many phases. Now, in order to be a member of the staff, a student must be a junior or a senior and be recommended by his English teacher. Besides the one class period a day that they spend working on the yearbook, the staff members also work throughout the summer and fall selling ads to local businesses to help meet the cost of printing the yearbook.

[illegible][illegible]

Student council is the body by which Whitmerites govern themselves. Through their elected representatives, students are able to express their views. Each class elected six representatives who formed the regular council. The commissioners and their assistants were chosen from this group. Home room representatives, who had the right to vote, formed the membership of these commissions.

Homecoming was the first big event of the year. Council supervised the queen's coronation and the Royalty Ball. Housing for the annual Whitmer Debate Tournament was next on the agenda. After exams, and just before Valentine's Day, the annual tournament dance was held. This year, besides the traditional senior knight, a squire from each of the under-classes was also elected. On Student Government Day, council members assumed school administrative posts for a day. On the 25th, 26th, and 27th of April, the tenth annual conference of the Ohio Association of Student Councils was held at Whitmer. Delegates from all over the state, including many foreign exchange students met to hear speakers and attend seminars on how to improve their own school councils.

Angela Piovengo and Caroline Manning walk to class together. Caroline, an exchange student from Italy, has been in the United States for the past year. She came to live with the Piovengos at the beginning of the second semester after having lived in New York for a month. Caroline plans to go on to college in Italy and is now studying hard to do so. She is very close to her present foster family and has a lot of friends. A career teacher at her new school, Caroline is happy.

Council Candids

Joe Kasuth painted a sign with the Toledo Area Student Council sportsmanship slogan on it. Hanging below the mural on the east wall of the field house is a sign that says "In victory or defeat, good sportsmanship is hard to beat." Each member of the Toledo Area Student Council submitted a slogan to the executive committee. After the selections were narrowed down, a final vote was taken at an open meeting. Both signs and car stickers were distributed at the beginning of the basketball season with this sportsmanship slogan on them.

Student Council's first major making plans of the school year was the new design for the Powder Blue West. The new design was ordered with an original school seal designed by a student. New designs were also ordered featuring a mounted Panther on a gray background. This new design was very popular and was soon sold out. The new design was also ordered for the new year. When they were delivered to the school, the new design was very popular. The new design was also ordered for the new year. When they were delivered to the school, the new design was very popular. Honorary inducts exceptional students.

Whitmer's chapter of the National Honor Society is composed of students selected for their outstanding achievement in scholarship, leadership, character, and service. Juniors must have an accumulative B average and seniors a C average to be eligible for membership. After induction in the spring, the new members attended a picnic with the graduating members. Before school was dismissed, a special meeting was held at which officers were elected. The summer months featured a party and scavenger hunt and a roast. Fall activities included a pajama party for the girls and the sponsorship of the last after-game dance of the football season, at which the doorprize was a team-autographed football. Members held a progressive dinner at Christmas and another party before tapping ceremonies in March.

Honor Society members can and do furnish their own room at school. Sandy Sheppard, Bob Sharrock and Larry Strong, our large section, are while clearing the room.

Thespians ROW 1: M. Parks, P. McVicker, E. Bort — Sec.-Treas., S. McGrath, L. Sheeler. ROW 2: R. Vollmer, K. Drake, B. Bodley — Pres., D. Granata, Mr. Aufderheide — Adviser.

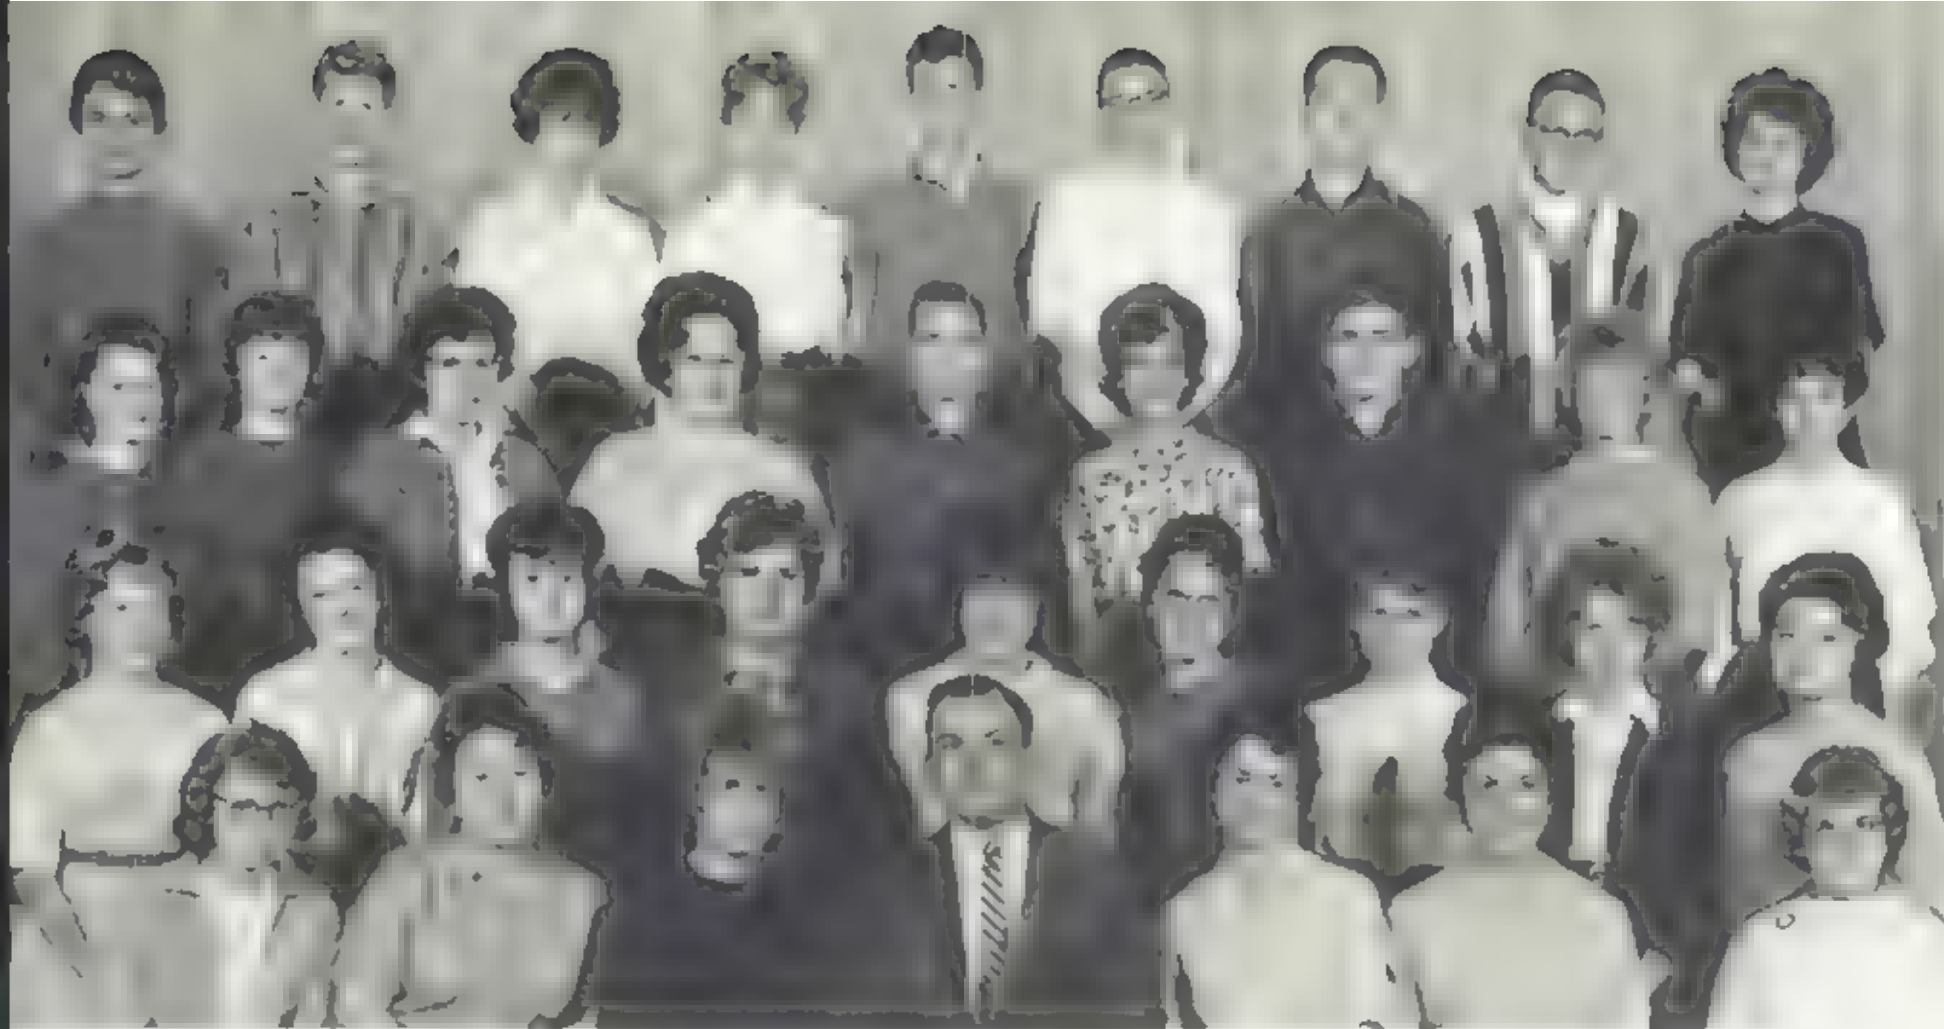

Members honored for specialized work.

Whitmer Thespians are members of an honorary dramatic society which promoted active interest in the dramatic arts. Members work not only before the footlights but also backstage and during rehearsals. Interested students may become apprentice Thespians, and earn points for various theatrical activities. When they have earned ten points, they are eligible for election to the honorary. Besides the senior play, junior play and the school musical, members presented a one act play at the Miami Children's Home.

Quill and Scroll is an international honor society for students who are interested in and have done outstanding work in the field of journalism. The club sponsored an after game dance to raise money for its treasury. The annual induction was held for both juniors and seniors in March. The club bought the book *American Journalism 1690-1960* to donate to the school library. Quill and Scroll also purchased name plates for the doors of the two journalism rooms.

Organizations practice foreign customs.

The French Club has adopted the name Les Amis de France, which means the friends of France. Any student who has taken at least one year of French is eligible for membership. The club sold homemade cookies at the senior play and the remaining cookies were given to an orphanage. The members held a tea and party and enjoyed a completely French meal at the Continental.

Junior Classical League members come to any student who is taking or has taken one year of Latin. The club donated records to the State Hospital and took clothing and toys to a needy family at Christmas time. Members attended the Roman banquet in January and a skating party in February. Major members also attended to Congress in March for the Junior Classical State Convention.

Spanish festivities color winter season.

La Alianza is open to any student who is taking or has taken Spanish for one year. At the meetings club members heard speeches about Spanish-speaking countries and saw slides of these countries. A caroling party was held over the Christmas vacation to welcome the Mexican foreign exchange student, Madeleine Jacques. The height of the festivities was the singing of Las Pos-

das, or Spanish Christmas carols, and the breaking of the pinata, a papier-mache head filled with candies and gifts. An induction dinner was held later in the year at which new members and officers were present. At this time, members received their new club pins. The club collected food and toys for two needy Mexican families at Christmas time.

Ancient traditions spark new enthusiasm.

Classical Honor Society is a national organization dedicated to promoting interest in the ancient Latin and Greek civilizations. Any student who has taken or is taking third year Latin is able to join. A hike and roast were held in the spring to welcome new members and elect officers. A summer splash party was held at Sunnyside Pool and another hike and roast at Oak Openings Park was held in the fall. Later in the year members

gathered at a near by bowling alley to bowl before they adjourned to the president's house for a party. The third year Latin class compiled the student directories which included students' names and addresses. Members relived the days of ancient Rome at the banquet in January and attended the State Convention in Columbus in March.

Lana Reed is a student director during a lunch hour. The directories contain an alphabetical list of the names, addresses, telephone numbers, classes, and home room of all students at Whitmer. The directories are compiled by the club members and are typed and mimeographed by the school business department. Classical Honor Society members then arrange and stage the banquets.

Debaters combine hard work with expert

The first of the school's two speech clubs is the Forum, open to any Whitmer student interested in the promotion of interscholastic speech. Not only debaters, but also participants in individual speech events belong to the club. Members gave up free time after school and on Saturdays to practice for and take part in the regu-

larly scheduled tournaments. They practiced and rehearsed right through the summer vacation. Whitmer's annual debate tournament was scheduled for December 7th and 8th, but because of a sudden snowstorm that closed Whitmer and the main highways, the tournament had to be postponed for a week. When it finally was

Research challenges inquisitive minds.

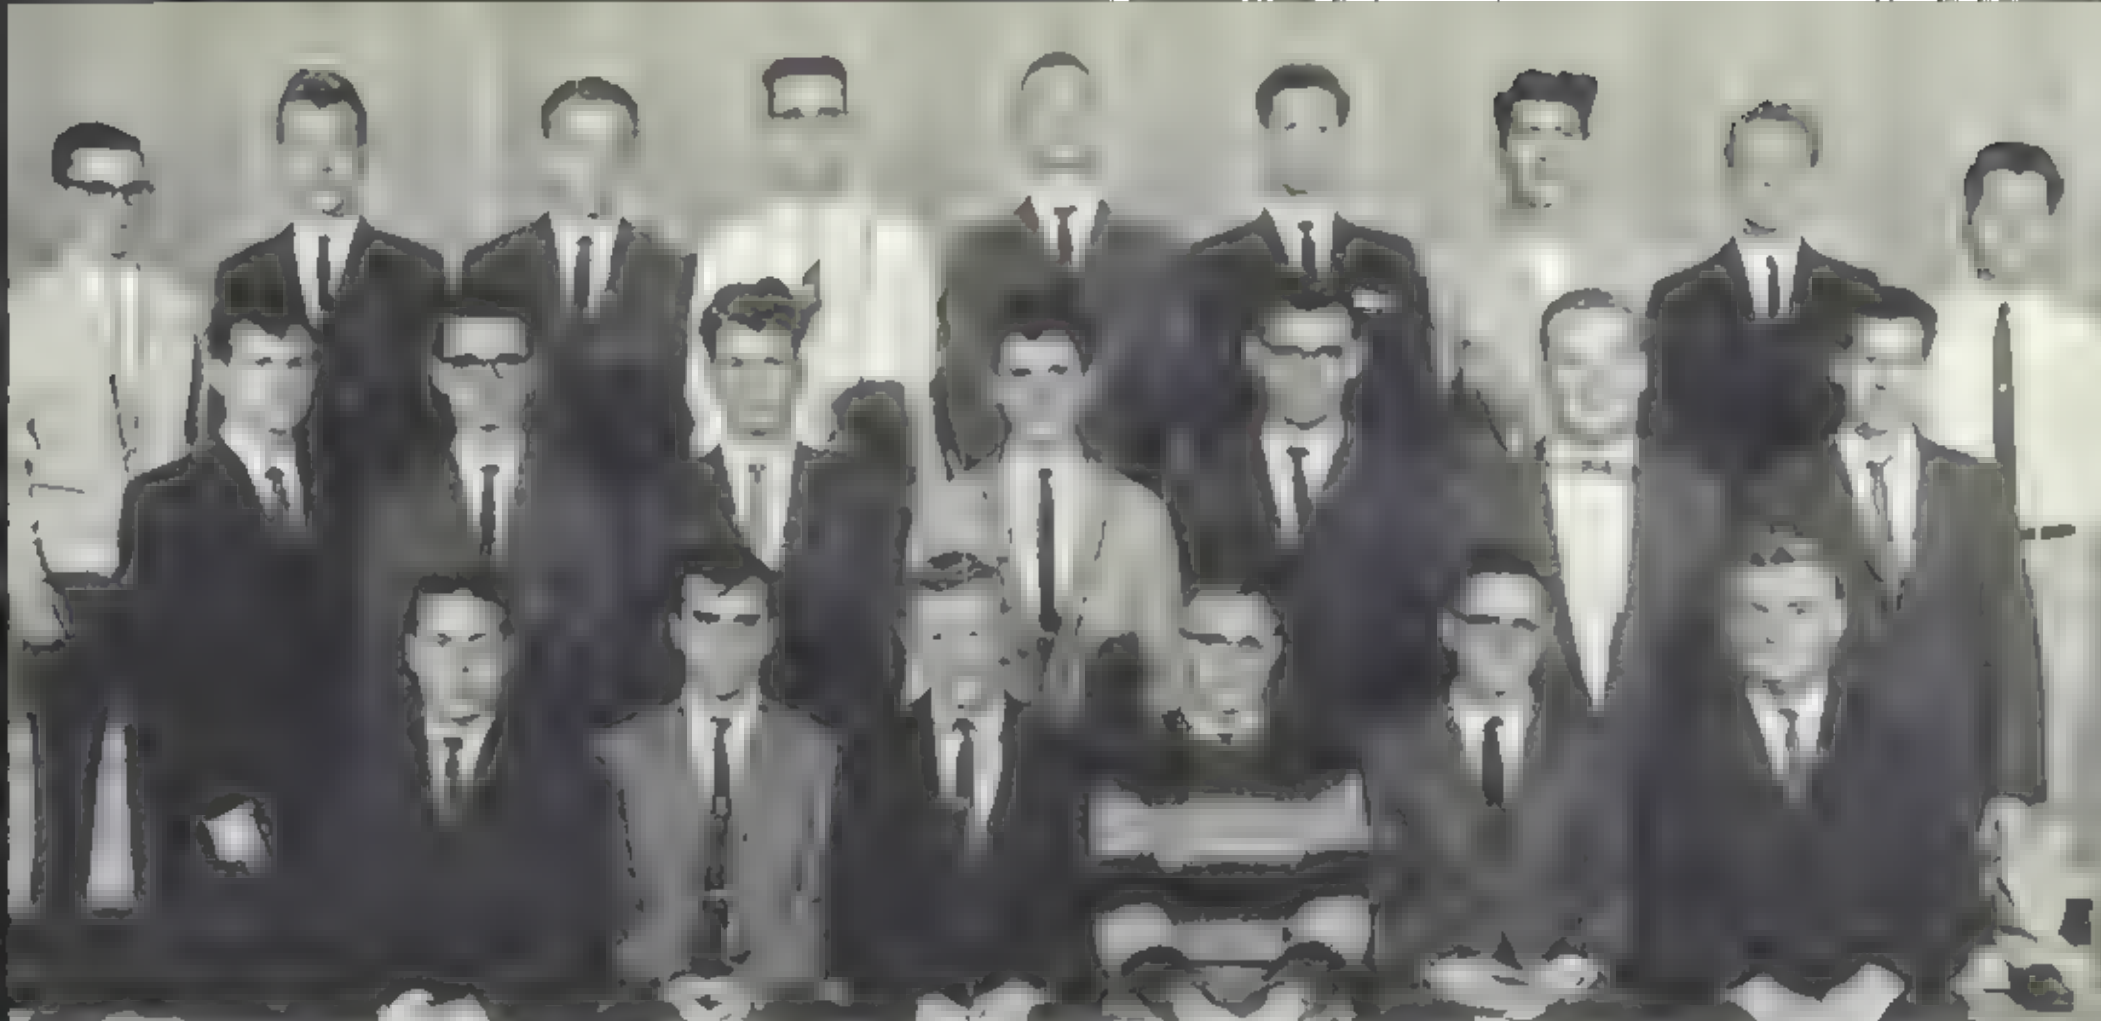

JETS, an abbreviation for Junior Engineering Technical Society, is an organization dedicated to promoting the physical sciences in the high school. JETS members built a work bench in the workshop next to the physics laboratory and installed a sprinkling system in the biology green house. The club also visited the Duraglass Center and the Libbey Glass plant, and built a ten-inch reflecting telescope.

Another science-minded organization at Whitmer is the Biology Club. The club promotes further familiarization with some problems studied in biology, especially the growing conservation problem. Club members planted tulip bulbs at the main entrance of the building and invited the Blade's nature editor to speak at an assembly program. The club also sponsored a field trip to Cranbrook Institute of Bloomfield Hills, Michigan.

Social events brighten club calendar.

The Vocational Industrial Club is composed of students enrolled in the trade and industrial classes. Its purpose is to promote interest and appreciation for the vocational industrial arts. The club, like the class program, is divided into two sections: auto-mechanics and machine shop. The auto-mechanics division purchased

draperies for the related science classroom and a first aid kit for the shop. Club members sold party nuts to raise money for their banquet. The machine division went to a V.I. convention in the fall and prepared two Christmas baskets. They had an outdoor steak roast and another party during the holiday season.

Profession welcome future leaders.

Future Business Leaders of America is a club that is open to any student enrolled in at least one commercial course. The club prepares young people for positions of leadership and familiarizes them with the many opportunities for advancement that can be found in the business world. The club took advantage of the long cold spell last winter by having an ice skating party and a sledding party. Members also contributed food to pre-

pare Christmas baskets for needy families. The club toured International Business Machines to see the more complex machines that modern businesses use today. Members also participated in a convention at Bowling Green State University for business clubs. Speakers and exhibits were all part of the one-day program. At the end of the school year, the graduating senior members were honored at a club banquet.

G.A.A. members stress physical fitness.

The Girls' Athletic Association encourages girls' interest in all forms of physical activity. To remain active, members must participate in at least one of the sports offered each season, and three-fourths of the total number of games played. The games are played after school on prescribed days of the week. Bowling and field hockey started the program in the fall. One team attended

a hockey play-day at Maumee High School as an interscholastic activity. G.A.A. intramural sports include basketball, table-tennis, shuffleboard, badminton, and volleyball. An extra volleyball game was played against Clay, after which the visiting team members were served cookies and milk.

One team takes advantage of a free hit and drives the ball towards the goal in a game of field hockey.

At this point in a volleyball game, no one is quite sure whether the ball will go over the net or not

Sports minded girls exhibit enthusiasm.

Spring weather ushered in the softball, archery, and track seasons. The new adviser and physical education teacher, Miss Matheney, joined the girls in their games and activities. A fudge sale served as one of the club's money-making projects. Members got together for a splash party at the Catholic Club on January thirteenth

and at a pajama party during the same month. At the annual club banquet held in the spring at a local restaurant, many girls received club emblems and letter awards based on the number of activity points that they had accumulated

Y-Teens share in city-wide fellowship.

Sophomore and Senior Y Teens show girls how to lead Christian lives in this world and build spiritual fellowships with their neighbors. Both juniors and seniors belong to Senior Y Teens. The club members served dinners at the Toledo Society for the Blind and worked to present the World Fellowship Carnival for children at the Y.W.C.A. Among the clubs' activities this year

were a splash party, an ice skating party, and an area bermuda trip. Members also attended an area formal dance. Senior Y Tees members went Christmas caroling, and the sophomore class held a car wash. In the spring, a banquet was held at which next year's senior officers were installed.

Tri-class organization strikes balance

Any boy at Whitmer may join the Hi-Y. It is a city wide Y.M.C.A. organization dedicated to promoting clean living, good sportsmanship and service to fellowmen. Members spend programs at all the home basketball games and Christmas trees at the West Toledo Y.M.C.A. maintained the school's trophy cases and helped to present the Thanksgiving, Christmas and Easter assemblies. The senior club had a very nice swimming party and a

picnic. Junior Hi-Y sponsored an aftergame dance, two sports parties and a picnic. The sophomore club held a dance and a car wash. Another Hi-Y activity was the sponsorship of over night stays, at which club members were allowed to use Y.M.C.A. facilities. Athletic programs included intramural competition among all three clubs and competition in the Y.M.C.A. basketball and volleyball tournaments.

Lorna's face mirrors the action on the field

Homecoming highlights fall festivities.

Homecoming has been a tradition at Whitmer since 1947 when it was first held at Mr. Ralph Pratt's suggestion. The Queen and her court first reigned at a Homecoming dance in 1944 and both the game and dance were held at the school as early as the first of the football season.

This year's game was played against our arch rivals the Rogers Rams. Preceding the game, the queen

candidates and the 1961 Queen, Carole Refi, were driven around the field. Moments later, the crowd cheered as it was announced that Lorna Farnol was the 1962 Homecoming Queen. She and her court reigned at the dance the following evening. Whitmer's cafeteria was decorated for the Royalty Ball with crepe paper streamers and a huge papier-mache football suspended from the ceiling.

The dance pace livens as students twist

Long and low as art, Chuck Smith, lead the crowd to the love dance

Queen Lorna

Phil Fortune begins asking John Egnew a succession of leading questions by which he forces him to admit that literal interpretation of the Bible isn't the only interpretation.

In the hustle and bustle that precedes each performance, Sandy Kruse applies stage makeup to Wes Sylvia.

seniors produce thought-provoking drama.

The senior class under the direction of Mr. Jean Aufderheide and assistant director Kathy Smith, presented Lawrence Sanders' *Inherit the Wind*. Inspired by the Monkey Trial of the twenties, this play portrayed the trial of a school teacher in a small town who was prosecuted for teaching the theory of evolution. Two of the country's most famous men, agnostic Henry Drummond and three-time presidential candidate, Matthew Harr-

ison Brady, clashed in the court proceedings. The whole nation watched the courtroom when in an unprecedented move the defense counsel put the prosecuting attorney on the witness stand. Drummond not only broke through Brady's basic fundamentalist religious shield but he also broke his spirit and body. Brady died and life continued. But still the question remains: Darwin or the Bible? think or conform?

Cast members mingle backstage, trying to find their places for the curtain call.

The evening feed is, in fact, the feed given to the birds
just before the morning feed.

Tropical breezes warm a mid-winter prom.

The typically dry weather in mid-winter was disrupted by heavy rain on the night of 19-20 Feb. The rain was followed by a cold front from England on 23-24 Feb. The storm system in the South Sea setting was created by a cold front moving westward from where King Kong emerged unexpectedly. A flowered bridge on a Komodo put where the re-

freshments were served. A grassy elevated is and in the center of the floor served as a throne for the queen and her court. Midway thru the evening the queen candidates were presented and last years queen, Miss Judy Wark, crowned Miss Dorene DeBruin 1963 Junior Prom Queen.

2. A Summary Here Goes The First Part Of The Document
The Second Part

Sure-footedness and confidence insure a three-point landing for boys in the throws act.

Two extra and two times average talent are shown by Kay and Kathy Gerhartsen in the uneven parallel bars.

A record number of students perfect

The twenty-seventh annual Winter Circus was presented under the direction of Mr. Donald Stacy, who first initiated the event in 1930. A record number of 700 students appeared in the circus, performing the various skills and specialties which they had practiced in gym classes for four months.

The oldest acts, tumbling, apparatus, clowning, and the ladder act, were well-received with the same enthusi-

asm that has greeted them for years. Some of this past year's acts, not included in the 26th Circus, were a girl's two-man routine and a military drill. As always, the relays stirred up excitement in the audience as the seniors won six out of eight races. New speed records in the relays and giant swings were made. The ladder act, not new by any means, added the final expected thrills and climax to the whole evening.

Sidewalk Superintendents gather to watch the final climax of the ladder act and to offer comments and advice.

Sophomores Sue Stagg and Jack Rankin combine two determined looks and their leg to win the race for their class.

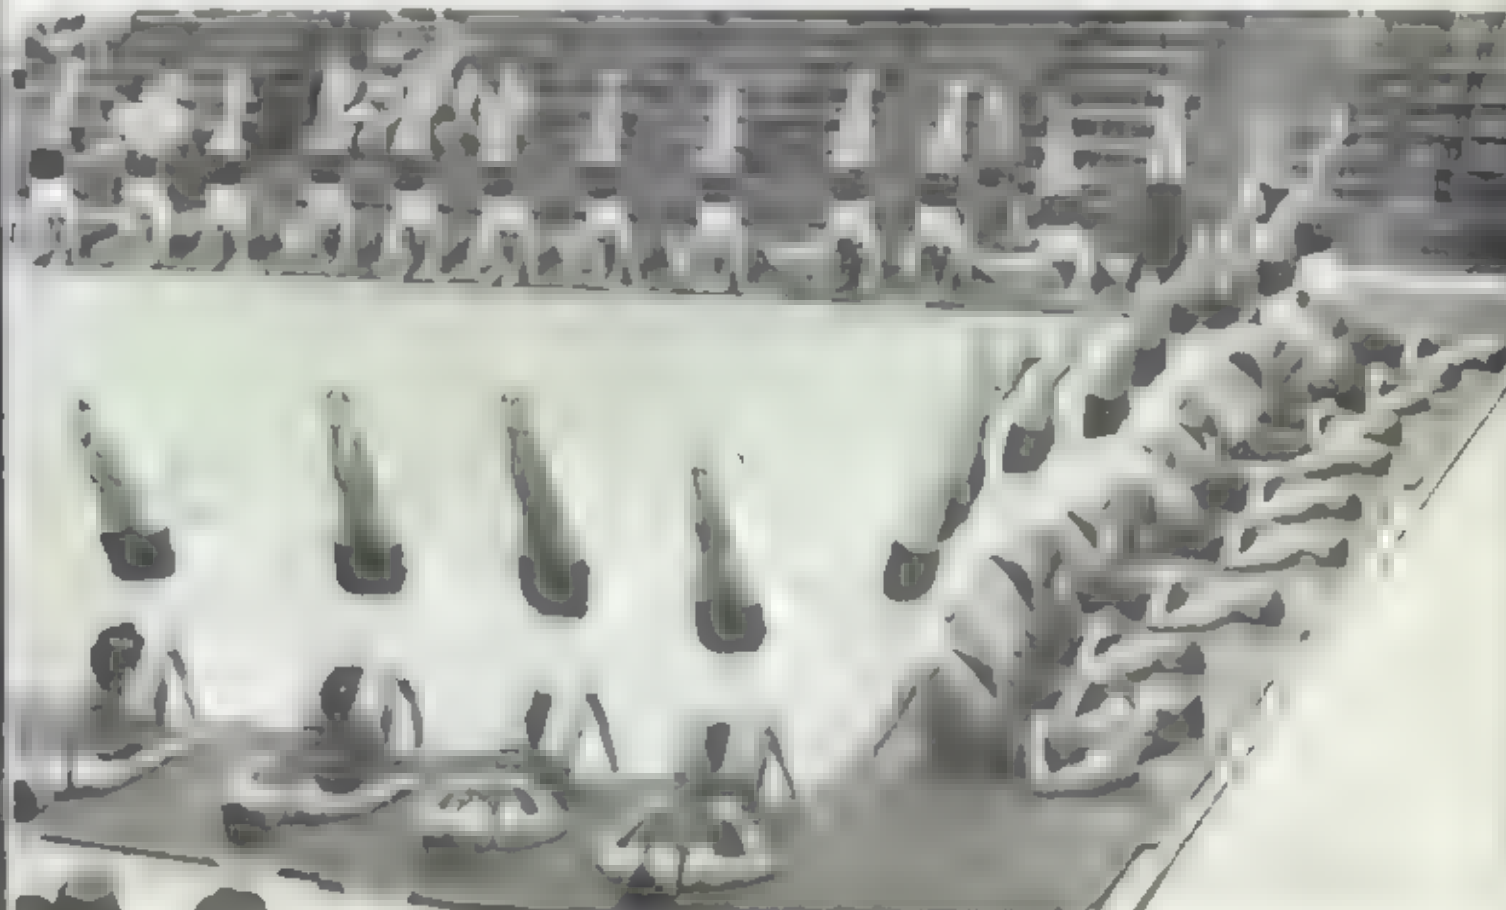

Several students offer advice to a friend, who is down.

many skills to uphold circus tradition.

A specialty act features a man, a woman and a young boy, which is just a small part of their more advanced circus performance.

Everybody's up as the cry that could be heard as elementary school participants performed in unison.

 and their friends, who are standing and sitting in the background.

Students' combined talents present a

They are Maxwell McKee, Roseann Bohl, & Betty Boley, who are standing and sitting in the background.

The girls and their handsome beaux prove that love conquers all as they hear wedding bells chiming for them.

During the 1962 school year, Whitmer presented its first musical stage play, "The Boyfriend" written by Sandy Arams and directed by Mr. Paul Slovax. It was performed during the first week of May, although the cast had been rehearsing with Mr. Slovax and student director Ruth Grochowsky since the latter part of January.

"The Boyfriend" was a successful British satire of the musical comedies of the 1920's. It was set in an exclusive girls' finishing school on the French Riviera and heightened by authentic scenery and colorful costumes of the period. The classic story of the love and mistaken identities of two millionaires, masquerading as proletariats was enacted, complete with foot-tapping songs, tender ballads, and dance numbers.

From left to right: Ruth Grochowsky, Sandy Arams, and Paul Slovax. Ruth Grochowsky is shown in her role as the character of the play.

British musical comedy, "The Boyfriend."

The musical comedy "The Boyfriend" was the first production of the school's musical department. It was directed by Paul Slovax and written by Sandy Arams. The play was performed by the school's musical ensemble.

On the left, with the character of the play, and on the right, with the character of the play, both played by both Paul Slovax and Sandy Arams.

JUNIORS

Dave Work — Sergeant at-Arms Mr. Kerlin — Adviser
Bob Avery — Treasurer, Darlene DeNune — Secretary B.L.
Deeter — Vice President Gary Kusumr — President Mr.
Schaeffer — Adviser

Juniors make money by washing cars at a well-chosen location — right next to the bank

Gary Kusumi — president, discusses class affairs with Kathy McGorry — play, Jane Brecht — decorations, Dave Darnon — prom queen, Linda Hill — tickets and publicity, and Rod Jenkins — ring committee

Smiles match their heights as Kay Gernheuser, Larry Foels, Jeff Wagner, and Pat Cunningham get taller and happier with their new class rings

Cabinet chooses capable committees.

SENIORS

Dave Moon — Sergeant at-Arms Nick Neuhaus — Vice President, Mr. Graves — Adviser, Linda Pelton — Secretary, Dave Saezler — Treasurer, Fritz Kambach — President

Forgetting their traditional aloofness, several upperclassmen let their hair down in a spirited snowball fight. These uninhibited seniors are: Gary Crabb — chairman of queen committee, Chuck Smith — co-chairman of memorial committee, Larry Strang — memorial committee, Taree Deeds — chairman of program committee, Andy Skoff — prom committee, and Bette Bodley — co-chairman of memorial committee.

Motto

"He who walks in wisdom is safe from danger."

Colors

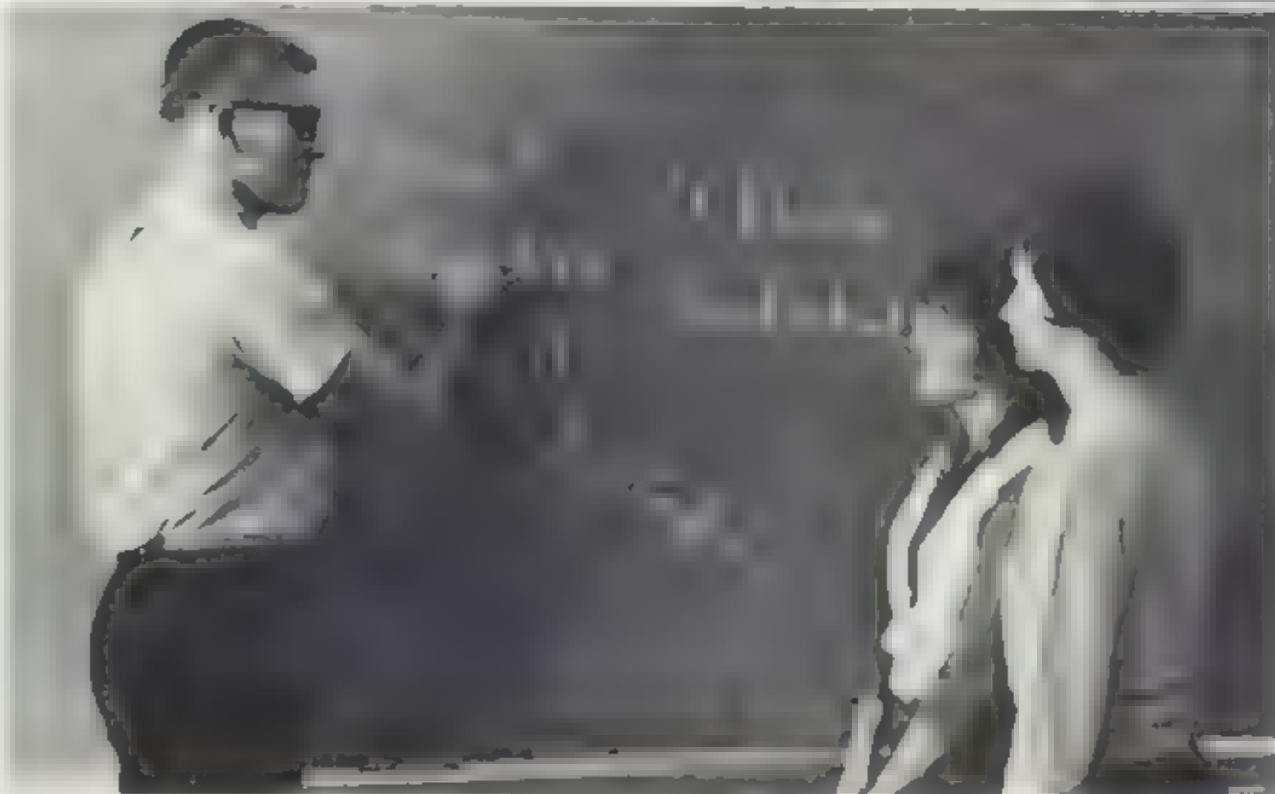

Green and White

Flower

Cherry Blossom

All girls with money on their minds, Pat Chriss — chairman of money raising committee, Kathy Smith — chairman of announcements, and Annabelle Clark — chairman of publicity committee, walk into Mr. Schaller's office for a conference.

Gene Kawczynski explains to co-chairman of the prom committee Lorna Farnol, and chairman of the tickets committee, Sandy Sheppard, that some dates and places are unavailable for the senior prom.

Seniors see school scenes slipping by.

The class of '63 is credited with an interesting first. We are the first class to complete the full three years of study in the new Whitmer. Our class assembly was held in September when Mr. Graves and Mrs. Lafayette were introduced as our advisers. Officers were soon elected and busied themselves with plans for our successful bake sales. In our sophomore year, a new dance was held during Christmas vacation. The girls asked the boys to the dance and spread the turn-about fun throughout the preceding Twirp Week. By spring, we were so eager for a class function that even fresh rain and mud didn't keep us from having a picnic and enjoying ourselves.

Mr. Graves and our adviser, Mrs. Poth, welcomed us back in our junior year. Student council revived the practice of underclass attendants, and Jill Penske represented us at Homecoming. Another innovation of Council was Slave Day in which students were sold to teachers at an auction. In December we helped with the debate tournament by acting as timekeepers, guides, and hosts for visiting participants. Later in the year, we sold tickets for a spaghetti dinner to raise money for our district champs. The profits from the dinner sent four challengers to the National Tournament in Missoula, Montana. On December 19th, the most important date in our junior calendar, we received our class rings. February was an important month because we produced

the spine-tingling play "Terror in the Suburbs." During this same month, Judy Work reigned as the lovely queen of the Junior Prom, An Evening in Venice, which was held in our decorated field house. Late in the spring we held a successful car wash.

Our lone adviser, Mr. Graves, helped us begin our final year's activities with the play, "Inherit the Wind." It was a departure from the ordinary high school play and represented renewed efforts in the field of educational theater. Students again prepared for our debate tournament, but a sudden snowstorm across Ohio forced Whitmer's closing and the tournament's postponement. A surprise contribution of Christmas tree ornaments provided us with another money-raising project, and proceeds from a car wash increased the size of our treasury. In the spring, the Ohio Association of Student Councils held its tenth annual convention at Whitmer. Delegates from all over Ohio attended and spent the night at many of our homes. When the convention fun was over, we returned to the job of preparing for our senior prom in May and our all-important commencement exercises. Although the graduating class has decreased in size from the 425 who attended Whitmer as sophomores, the remaining students have increased their knowledge, widened their experience, and developed their character during their three years at Whitmer.

Walt Mieczkowski and Bob Hume explain to Madeleine Jacques about the entrance requirements of American colleges. Sandy Kruse, with whom this exchange student is staying, looks on, ready to offer her own comments. Madeleine is a native of Mexico City, but has also lived and studied in England and France. Her school's "summer" vacation is from November to February and this year she is spending it here in the United States.

LANDMARKS OF PROGRESS • IN TOLEDO

Glass Center of the World

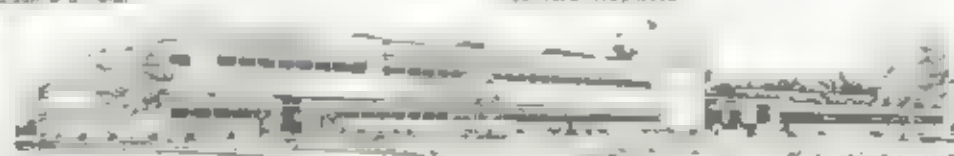

In these four buildings are employed more than 4,000 Owens-Illinois men and women of Greater Toledo. Their employment means payrolls and purchasing power which adds strength to the area's economy.

Through nation-wide Company growth and progress Owens-Illinois payrolls here have long provided a part of the economic drive which has marked Toledo's advancement. These four buildings are a visible sign of that contribution—past, present and future.

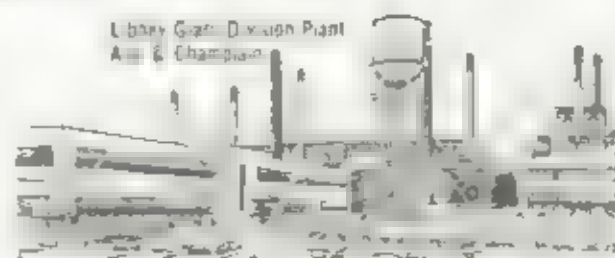

Owens-Illinois Building
Madison & S. Clair

Owens-Illinois Technical Center
700 North Westwood

One of the world's largest and most complete glass, plastics and forest products research facilities, housing more than 800 scientists, engineers, technicians and staff personnel.

Library Glass Division Plant
Arling & Champlain

Glass Center
4th & Adams

Customer service facilities staffed by nearly 500 offer Owens-Illinois customers the advantages of specialized design, product research and marketing services.

More than 1,300 Toledo area residents work in the O. General Offices. Total Company employment exceeds 35,000.

What a wonderful Open World

MADE IN U.S.A.

THE QUALITY MARK
TO LOOK FOR

Wherever you live, work, shop or travel, you'll find L O F Glass making it more enjoyable. In homes, motels, schools and stores. In offices and factories. In hospitals and churches. In cars, buses, trains and planes.

There's an L O F Glass that insulates windows. It's called *Thermopane*® insulating glass. Another subdues sun heat and glare. L O F Glass that makes automobiles safer. L O F Glass to do a thousand things.

And when anyone needs glass, there's an authority on it nearby—your local independent L O F Glass Distributor or Dealer. His name is in the telephone book Yellow Pages under "Glass". Call him.

Laboratories, shops and studyrooms are separated from twin classroom buildings by a broad, central court. Ithaca Senior High School, Ithaca, N.Y. Architects: Perkins & Will, White Plains, N.Y.

You Can't Go Wrong...

Nobody should ever consider his education complete. You can't go wrong by getting as much schooling as possible. So strongly does Toledo Edison feel about this that we finance three scholarships a year at the University of Toledo.

Lots of college graduates find Toledo Edison a good place to work. Investor-owned electric companies offer interesting careers in many fields. You might want to look into this.

Are You In Step With The Times?

You will be when you step through the door of GOODREMONT'S OFFICE SPECIALTIES. You will not only be in step, but far out in front of your competition, when it comes to business and duplicating machines.

The progressive minded business man only has to be introduced to one of our fine lines of equipment to know he need not search any further... no matter what his needs may be.

With this confident feeling and sincere belief in the value of our products, we would like to invite you, tomorrows businessmen and businesswomen, to come in and see a demonstration. Witness for yourself, that stepping through the front door at GOODREMONT'S is certainly keeping in step with the times.

► ADLER "JUNIOR 3"

In our day and age, saving of time and self expression count for a great deal in the life of everyone. The use of a typewriter in private life shows the writer's positive attitude to present day requirements. On an ADLER even the dot on the *i* and the cross on the *t* illustrates the exquisite style of type which will make your letters a pleasure to read. The top class model like the JUNIOR 3 is not only a sensible and efficient instrument for work but is a pleasure to behold.

► ADLER "ELECTRIC"

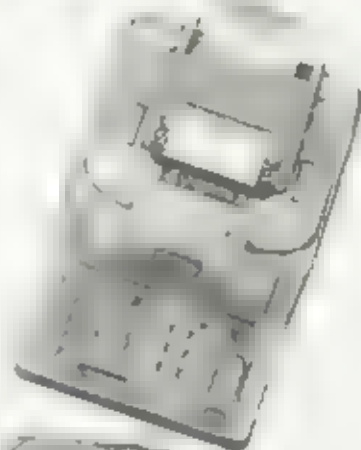

In the ADLER Electric look for all these Adler features. (1) variable key depression (2) automatic, adjustable paper injector and ejector (3) word expander (4) automatic dotting and underscoring including double underscore - repeat space bar - touch-action tabulator bar - impression control - automatic off-switch - silent, non-vibrating motor - noiseless, automatic carriage return and line spacing

► ADDO-X PRINTING CALCULATOR

Model 4541 - Printing calculator for all four operations, with accumulating register, credit balance, multi-memory, and special discount and mark-up keys. Due to its ingenious design, the machine gives speedier, more accurate, and easier calculations. The symmetric keyboard on an Addo-X affords easier vision. The feather-light touch and the rapid change-over of the operating keys allow faster work with less fatigue. The machine calculates automatically, with super-short-cut multiplication - which means that it automatically chooses the shortest way to the result.

► RONEO "750"

Roneo have produced, in the new '750', a precision machine which could not be simpler to use. Automatically it produces the highest possible standard of work at a surprisingly low running cost. Comparative tests alongside the leading duplicators from the United Kingdom, the United States and the continent of Europe show that no other duplicator in the world can give you the advantage of Roneo '750'. Form your own conclusions by asking for a comparative demonstration in your own office alongside any machines you choose.

To a nice kid,
from a nicer one.
Thomas

Linda.

You're a real
sweet kid that
I've just met this
year, & I'll remember
you always. Best
of luck!! Sandy
Karmann

To Linda, sweetest
I hope you have
a great year!
Love, Thomas

Linda -

Is one of the sweetest
girls I know. I missed
seeing you ^{very} much this
year! Best of luck.

Your friend always,
Sandy La Zette

Linda a real sweet
kid. Hope I'll see
you next year.

Linda -
a very sweet gal.
See you next year.
Love, Jackson

Rick
Wimberly
-65-

Linda,

It's been fun sharing
the "F's" in Biology.

Lots of Luck.

Karen

Williams
"65"

To Linda -
You're a really
nice girl. Good
luck always
Bill Mackin

Linda,

You're a real nice girl
that I've enjoyed knowing.
I hope we are friends for a
long time. Lots of luck. Your half brother,
George

To Jim Scherer } for
 this space is reserved }
 Jim Scherer?

I indow,
 a very sweet
 kid who I was
 near M^e
 I owe ya
 ya fates Biffy
 I love ya
 "1, 2, 3"

Good luck
 next year and
 always. I go to
 next year

Good Luck
 in the future
 Elizabeth Rosengard

Linda -
 you're a real
 sweet girl with
 a personality to
 match! Have
 fun this summer,
 hope to see you
 next year!

Love ya,

Judy Bradley

Rich & I have
 that I'm growing
 up and with
 although in
 luck in
 hope you
 all year
 school
 growing
 love ya

Linda,
 you're a real
 sweet girl with
 a personality to
 match! Have
 fun this summer,
 hope to see you
 next year!

Linda,
 you're a real
 sweet girl with
 a personality to
 match! Have
 fun this summer,
 hope to see you
 next year!

EVEN TWO
I JUST MET YOU
THIS YEAR - IT'S BEEN
A REAL HOT OF FUN
KNOWING YOU!

I loves ya Linda
stay as nice as you
and I'll loves ya
always. Jenny Warner
Feb 65

Good luck to a
real nice kid.
Joy Stewart

Linda -
you're real
cute even with
your leg in a cast
Best of luck the
next 2 years!

Sally Cole
(Varsity Self '63)

Linda -
Good Luck in
your initiation in
Rainbow. You'll
need it.
Good Luck
Sue Bissonette
-63-

Linda -
good luck in
all that you do.
Please stay the
way you are - wonderful
Sincerely
Emily Palmer
Good luck in '64!

Don't forget to
write me when
you're in the
hospital! I'll
be there for you!

Don't forget to
write me when
you're in the
hospital! I'll
be there for you!
